Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit focuses attention on curriculum and pedagogical approaches to teaching and learning with children from birth to two years. The unit introduces students to research relating to how infants and toddlers learn and the role of intentional teaching in promoting learning and development. Students will engage in a critical analysis of curriculum approaches, relationship-based teaching and learning, and environmental contexts that are recommended for infants and toddlers. The unit will culminate in the planning and documentation of an effective learning environment for children in this age group.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://students.mq.edu.au/important-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Articulate an in-depth understanding of theoretical and pedagogical ideas relating to the effective learning and teaching of infants and toddlers in early childhood settings.

ULO2: Demonstrate an in-depth understanding of the ways in which different relationships and relationships characteristics are played out in, and impact on, infant-toddler learning and teaching.

ULO3: Plan an effective learning environment for infants and toddlers that takes account research understandings, issues of agency and participation, contemporary early years curriculum outcomes and health and safety issues.

ULO4: Draw on contemporary literature and real-world experience to demonstrate an reflective, evidence-based understanding of the role of the early childhood teacher in supporting the learning and development of infants and toddlers.

General Assessment Information

Full instructions for each assignment, including the assessment criteria can be found in the assignment guide attached to the ECHE3110 iLearn site.

Unit Expectations:

- All assignments must be submitted and must demonstrate a serious attempt to address the assessment task and criteria
- Students are expected to attend at least 80% of their tutorial sessions
- Students are required to read weekly readings, listen to weekly lecture and complete associated tasks before attending tutorials

Failure to meet any of the requirements listed above will place students at serious risk of failing the unit.

EXPECTED ACADEMIC LITERACY LEVEL

As a 3000-level unit, students are expected to demonstrate a fully functional level of academic literacy in their assignment work. The expectation levels are listed below. Students whose work does not meet these standards are at serious risk of failing the unit.

Note that work that breaches the Macquarie University academic honesty policy (see Academic honesty and plagiarism section below) will attract significant deductions in marks and may, in some cases, be referred to the Faculty academic honesty committee for consideration. Penalties may apply beyond those specified above.

Key academic literacy skill	Expected level of performance

<p>Assignment requirements are addressed using a satisfactory level of academic written expression, appropriate to the genre of the assignment.</p>	<p>Each required part of the assignment has been addressed.</p> <p>The assignment is generally well structured, demonstrating logically organised ideas and concepts.</p> <p>There may be minor spelling or grammatical errors which make the meaning unclear in small portions of the assignment.</p> <p>The assignment complies with the specified word limit.</p>
<p>Unit readings and other appropriate academic sources are used to support the views expressed in assignments</p>	<p>Relevant infant-toddler curriculum and pedagogy academic sources, including the set unit readings, have been used to support the ideas expressed in the work.</p> <p>The assignment shows an ability to identify the key arguments in the required readings and relate these to the topic in question.</p>
<p>The requirements of the Macquarie Academic Integrity Policy is adhered to throughout the assignment.</p>	<p>A consistent effort has been made to use the APA 7th referencing and citation style. There may be a few style errors and/or some inconsistencies that will need to be addressed in future assignments.</p> <p>All consulted sources have been acknowledged through in-text citations and included in the reference list.</p> <p>Quoted material has been appropriately represented in quotation marks, with in-text citations to correctly identify the source.</p> <p>There is no evidence of collusion, cheating, fabrication, self-plagiarism, or any other unacceptable activities, as defined in the Academic Integrity Policy Schedule 2: Definition of academic activities</p>

PRESENTATION AND SUBMISSION GUIDELINES

- Students must regularly save a copy of all assignments before submission,
- Unless there are exceptional circumstances (see special consideration below), no assessment will be accepted more than one week (including weekends) after the due date.
- Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.
- If an assessment is considered to be below passing standard, another staff member on the unit will provide a second opinion. No failed assessment may be re-submitted.

Assignment presentation and submission

All written submissions are to be legible and professionally presented. **Please follow these guidelines when you submit each assignment:**

- Allow a left and right-hand margin of at least 2cm in all assignments. This allows us to attach, and you to read your feedback comments easily.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc or .pdf format
- Assignments must represent the student's individual work (see Academic Honesty

section below).

- All assessments must be submitted through Turnitin in .doc or .pdf format for submission.
- It is the responsibility of the student to ensure that all assessments are successfully submitted through Turnitin.
- Use APA 7th referencing style to acknowledge your sources and support your ideas with in-text referencing, and include a full reference list of all works that are cited within your assignment.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

Final Submissions

- You are responsible for checking that your submission has been successful and has been submitted by the due date and time. **Do not contact staff asking them to check your submission.**
- Late submissions due to last minute technical difficulties may incur a lateness penalty.
- Your assignment will be marked based on what is received – any omissions or submission errors cannot be corrected after the submission date. **Please check very carefully.**

Word limit

All sections of the assignment, apart from references and appendices, are included in the word limit. If your assignment seriously exceeds the word limit (more than 10% over), it will be marked only to the point at which the word limit is reached.

Academic integrity and plagiarism

The nature of scholarly endeavour, dependent as it is on the work of others, binds all members of the University community to abide by the principles of academic honesty.

Plagiarism is a matter of particular importance. Plagiarism is defined as using the work or ideas of another person and presenting this as your own without clear acknowledgement of the source of the work or ideas. This includes, but is not limited to, any of the following acts:

- copying out part(s) of any document or audio-visual material or computer code or website content without indicating their origins;
- using or extracting another person's concepts, experimental results, or conclusions;
- summarising another person's work;
- submitting substantially the same final version of any material as another student in an assignment where there was collaborative preparatory work;
- use of others (paid or otherwise) to conceive, research or write material submitted for assessment; and
- submitting the same or substantially the same piece of work for two different tasks (self-plagiarism).

Other activities that breach the Macquarie Academic Integrity Policy include collusion, cheating (including contract cheating) and fabrication, the definitions of which can be found in [Schedule 2 of the Academic Integrity Policy](#).

The University's Academic Integrity Policy can be found on the Policy Central website: <https://policies.mq.edu.au/document/view.php?id=3>

TURNITIN is used to assist students with appropriate referencing and paraphrasing, and to detect plagiarism. The system also serves as a digital repository if anything should happen to your hard copy submission or personal backup. Please ensure you have stated your *TURNITIN* receipt number on your coversheet. A link to *TURNITIN* is embedded in iLearn.

Extensions and Late Assignments

In general, there should be no need for extensions except through illness or misadventure that would be categorised as unavoidable disruption according to the University definition of same, see: <https://students.mq.edu.au/study/my-study-program/special-consideration>

Applications for extensions must be made via AskMQ according to the Special Consideration policy. Extensions can only be granted if they meet the Special Considerations policy and are submitted via <https://ask.mq.edu.au/>. This will ensure consistency in the consideration of such requests is maintained.

Late submissions: Unless a Special Consideration request has been submitted and approved, **(a) a penalty for lateness will apply - 10/100 marks of credit (10% of the total assessment weighting) will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline.** A zero result for the assignment will be recorded after the late submission period has ended if no task has been received.

No assessable work will be accepted after the return/release of marked work on the same topic. If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.

Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all

drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

Requesting a remark of an assignment

If you have evidence that your task has been incorrectly assessed against the grade descriptors you can request a re-mark. To request a re-mark you need to contact the unit convenor within 7 days of the date of return of the assignment and provide a detailed assessment of your script against the task criteria. Evidence from your assignment must be provided to support your judgments.

Note: Failed assessments can not be re-submitted as they are all double-marked as a part of the moderation process.

Also note: The outcome of a re-mark may be a higher/lower or unchanged grade. Grades are standards referenced and effort is NOT a criterion.

University Policy on Grading

The University recognises the importance of producing grades and reports of student learning achievements that are valid, reliable and accurate representations of each student's capabilities in relation to clearly articulated learning outcomes. Your final result for this unit will include a grade plus a standardised numerical grade (SNG).

For an explanation of the policy go to Policy Central: <http://www.mq.edu.au/policy/index.html>

Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. The following descriptive criteria are included for your information.

Criteria for awarding grades in the unit

Students will be awarded grades ranging from HD to F according to guidelines set out in the policy: <http://www.mq.edu.au/policy/docs/grading/policy.html>

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

The following generic grade descriptors provide university-wide standards for awarding final grades.

Grade	Descriptor
HD (High Distinction)	Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline.

D (Distinction)	Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.
Cr (Credit)	Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; convincing argumentation with appropriate coherent justification; communication of ideas fluently and clearly in terms of the conventions of the discipline.
P (Pass).	Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes
F (Fail)	Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.

Withdrawing from this unit

If you are considering withdrawing from this unit, please seek academic advice via <https://ask.mq.edu.au> before doing so as this unit may be a co-requisite or prerequisite for units in the following sessions and may impact on your progression through the degree.

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au.

Assessment Tasks

Name	Weighting	Hurdle	Due
<u>Research Synthesis</u>	35%	No	21:59, 22/08/2021
<u>Learning Resource</u>	25%	No	23:59, 22/09/2021
<u>Evidence based intentional teaching</u>	40%	No	23:59, 24/10/2021

Research Synthesis

Assessment Type ¹: Literature review

Indicative Time on Task ²: 30 hours

Due: **21:59, 22/08/2021**

Weighting: **35%**

Students source and synthesise from findings from research articles on a specified topic related

to high-quality pedagogies (choice of 2 topics). Students use this synthesis to identify implications for their pedagogical practice. (Approximately 1100 words)

On successful completion you will be able to:

- Articulate an in-depth understanding of theoretical and pedagogical ideas relating to the effective learning and teaching of infants and toddlers in early childhood settings.
- Draw on contemporary literature and real-world experience to demonstrate an reflective, evidence-based understanding of the role of the early childhood teacher in supporting the learning and development of infants and toddlers.

Learning Resource

Assessment Type ¹: Learning resource creation

Indicative Time on Task ²: 25 hours

Due: **23:59, 22/09/2021**

Weighting: **25%**

Drawing on the content of weeks 4 to 7, students develop, visually present and analyse the learning potential of a material resource for birth to 2 year old children. (Photographs of resource, plus approximately 800 words)

On successful completion you will be able to:

- Articulate an in-depth understanding of theoretical and pedagogical ideas relating to the effective learning and teaching of infants and toddlers in early childhood settings.
- Draw on contemporary literature and real-world experience to demonstrate an reflective, evidence-based understanding of the role of the early childhood teacher in supporting the learning and development of infants and toddlers.

Evidence based intentional teaching

Assessment Type ¹: Learning plan

Indicative Time on Task ²: 35 hours

Due: **23:59, 24/10/2021**

Weighting: **40%**

Using their assignment 2 resource as a basis, students will i) design a learning area, ii) explain and justify the physical design and the inclusions in terms of the learning / development potential and iii) draw on an infant-toddler research evidence base to identify and discuss pedagogies that will effectively support the learning / development identified in ii). (Pictorial plan plus approximately 1800 words)

On successful completion you will be able to:

- Articulate an in-depth understanding of theoretical and pedagogical ideas relating to the

effective learning and teaching of infants and toddlers in early childhood settings.

- Demonstrate an in-depth understanding of the ways in which different relationships and relationships characteristics are played out in, and impact on, infant-toddler learning and teaching.
- Plan an effective learning environment for infants and toddlers that takes account research understandings, issues of agency and participation, contemporary early years curriculum outcomes and health and safety issues.
- Draw on contemporary literature and real-world experience to demonstrate an reflective, evidence-based understanding of the role of the early childhood teacher in supporting the learning and development of infants and toddlers.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Learning Skills Unit](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

TUTORIAL CLASSES AND LECTURES

The external delivery of ECHE3110 is taught through independent study activities which are supported by **an on-campus session on Wednesday 15th September. Unless COVID109 prohibits, this on-campus session will take place face-to-face.** Details of the tutorial venue can be found on the Macquarie University Timetables site. **Attendance is expected.**

Content is delivered through pre-recorded online lectures, readings and reflection tasks which commence in **week 1 of the session.** Online lectures have reflection questions and tasks that students are required to complete prior to the relevant weekly tutorial. Weekly readings also form the basis for the on-campus discussions which are structured to include whole and small group discussions and tasks, as well as independent work. **Effective preparation is required, and attendance is expected.**

Students completing ECHP3250: You can also apply for an extension for assignment 3. **Please read page 6 of the the assignment and assessment guide for details and submit the extension request in a timely manner.**

[UNIT WEBSITE AND STAFF CONTACT](#)

This unit has a full web presence through *iLearn*. Students will need regular access to a computer and a reliable internet connection to complete this unit.

Weekly lectures are available on the web through the ECHO360 lecture component.

Online tutorials are delivered via Zoom, and students will be provided with the online tutorial link via the relevant weekly section on iLearn.

Weekly access to iLearn is compulsory for all students. In addition to links to the online lectures and readings, important assessment information will be posted here, as will other relevant unit notices and materials that will assist your studies.

Access and technical assistance

- Information for students about access to the online component of this unit is available at <https://ilearn.mq.edu.au/login/index.php>. You will need to enter your student username and password.
- Please do NOT contact the Unit Convenor regarding iLearn technical help.
- No extensions will be given for any technical issues. Allow enough time for your submissions.
- Assistance is available from IT Helpdesk ph: 1800 67 4357, or log a request at help.mq.edu.au. OneHelp is the online IT support service for both students and staff.

REQUIRED TEXT AND READINGS

Required text (available via Booktopia):

Maguire-Fong, M.J (2020). *Teaching and learning with infants and toddlers: Where meaning making begins (2nd edition)*. San Francisco: WestEd.

Other required readings

Each week, students are required to read three allocated readings, comprising practitioner focused readings (e.g., text chapter / practitioner article) and one research article. These readings will form the basis of our tutorial discussions, and students are required to bring them to their class / on-campus session.

The readings are located via the Leganto link on the ECHE3110 ilearn site.

Students are required to will demonstrate continued engagement with these reading materials in their tutorials and assignment work.

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

School of Education Procedures

In addition, the following policies and procedures of the School of Education are applicable in this unit.

Attendance for undergraduate units

- All Internal tutorials begin in Week 1 of Session.
- Activities completed during weekly tutorials (internal) or on campus days (external) are essential for building the core knowledge and/or skills required to demonstrate the learning outcomes of this unit [and to meet the AITSL Graduate Teacher Standards and/or ACECQA requirements]. Attendance at all tutorials or on campus days is expected

and the roll will be taken.

- Students are required to attend the tutorial in which they are enrolled. Any changes to tutorial enrolments must be completed officially through e-student. Please do not contact the unit convenor requesting a change.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

The 5Rs Framework and its application in this unit

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course. Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling. In this

unit, you will learn using the 5Rs framework in the following important ways:

Resilience: You will find some of the content and expectations in this unit challenging. The academic staff are here to support, but you will need to demonstrate the resilience required to face these challenges and expand your knowledge and mind-sets

Reflexive: You will be provided with opportunities to reflect on the evidence base about infant-toddler learning and teaching, and consider how this can effectively be applied in practical contexts. You will critically reflect upon the role of the infant-toddler educator, and consider how this role can be successfully incorporated into your developing identity as an early childhood teacher.

Responsive: You will be expected to engage in respectful and responsive dialogue with your student peers and the academic staff. You will also have the opportunity to be responsive to feedback in order to extend your learning.

Research-engaged: Across the course of this unit, you will be engaging with research evidence about the nature and effectiveness of infant-toddler pedagogies and learning. You are expected to use this research evidence in your assignments.

Ready to learn: In all aspects of this unit, you are encouraged to maintain an open mind and be prepared to extend your learning and views about the learning and teaching of our youngest citizens. Feedback from academic staff, both in the form of on-going discussion and assignment feedback, is designed to foster your ongoing learning, so we encourage you to take advantage of this feedback.
