Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit encourages students to reflect on their undergraduate degree, and to integrate their knowledge from the sub-disciplines of psychology into a more holistic understanding of psychology. This unit also assists students to understand their options with a psychology degree, the standards of professional practice that will be required of them as psychologists, and pathways to higher study or employment. In order to help students gain a more practical understanding of the psychology profession, and to make informed decisions about their own future, this unit includes mandatory participation in an online workplace placement in which students apply the psychology knowledge and skills attained during their undergraduate degree.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify a social issue and devise practical solutions that are supported by sound psychological theories and evidence

ULO2: Use skills and knowledge acquired over the psychology degree in a real world context and develop new practical skills and knowledge over the course of a volunteer placement.

ULO3: Critically evaluate a body of literature on a social issue in relation to relevant psychology sub-disciplines

ULO4: Integrate and synthesise knowledge from various psychology sub-disciplines

ULO5: Critically reflect on how the different sub-disciplines in psychology link within the whole person and apply to wider social contexts, including the placement organisation's activities

ULO6: Reflect on their learning in psychology (including practical learning), and its application to professional and ethical practice (including at their volunteer placement)

ULO7: Demonstrate effective oral, written and visual communication skills that are appropriate to the purpose, medium and audience

General Assessment Information

1. For word count penalties, 5% of the possible mark will be deducted per 100 words over the word limit for the assessment task. An additional 99 words beyond the limit can be written without penalty.

It is Psychology policy that letter grades, not numeric marks, are released for written assessment tasks. Any requests for remark need to follow the Psychology process and must be applied within 2 weeks of the assessment task being returned. Information will be provided on iLearn.

The final exam for this unit is currently scheduled to occur on Macquarie University campus. Students are expected to make themselves available for the exam, at the date and time set by the University, in line with the Assessment Policy and Procedure.

All assessments for this unit are compulsory in order to be eligible to pass the unit. Any student who does not attempt an assessment in this unit will be granted a Fail Absent grade. Supplementary assessment tasks will only be provided following an approved Special Consideration application, and only when appropriate. Supplementary assessment tasks, including supplementary exams, can be in a different format to the original assessment task.

2. All extensions need to be formally requested via ask.mq.edu.au in line with the special consideration policy. Late submissions, without an approved extension, will receive a 5% per day penalty including weekends and public holidays. If you submit the assessment task 10 days or more beyond the due date, you will be awarded a maximum of 50% of the overall assessment marks. No further submissions will be accepted after the marked assignments are returned and feedback is released to students.
