Unit description

Literacy is one of the foundations of learning; it manifests itself in evolving forms and comprises a complex repertoire of knowledge and skills. Our changing communicative modes within a rapidly altering world require an expansion of the uses, purposes and practices of language and literacy. These encompass the key skills of reading, writing, viewing, representing, speaking and listening framed by a multimodal perspective of language. This unit examines these six language modes and it is organised around a research-based study of words, sounds, images, and texts, which include written, visual, oral/aural, digital and multimodal texts. Contemporary Australian curriculum, educational policies, and quality literacy practices will be introduced. The pedagogical emphasis is on a continuous cycle of explicit, systematic, balanced and integrated teaching for all students.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Demonstrate a working knowledge and understanding of the key principles and concepts used in contemporary language and literacy learning.

ULO2: Recognise the features of the six language modes (reading, writing, speaking,

listening, viewing and representing) and apply this knowledge to enhance their own and their students' learning.

ULO3: Demonstrate a working knowledge of grammar, and of the forms and features of a range of texts.

ULO4: Discuss in an informed manner the significant issues in literacy education through drawing upon their examination of current research, policies, curriculum and practices in the field.

ULO5: Develop some strategies to enhance their own pedagogical practices so as to work towards achieving improved literacy and language outcomes in education for all students.

ULO6: Demonstrate personal competency, knowledge and confidence in their uses of language and literacy in a variety of forms including ICT and digital.

General Assessment Information

Assessment Presentation and Submission Guidelines

Please follow these guidelines when you submit each assignment:

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc or .pdf format
- It is the responsibility of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets are NOT required.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

Please note:

- Students should regularly save a copy of all assignments before submission,
- Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.

Assignment extensions and late penalties

- In general, there should be no need for extensions except through illness or misadventure that would be categorised as serious and unavoidable disruption according to the University definition of same, see: <https://students.mq.edu.au/study/my-study-program/special-consideration>
- Applications for extensions must be made via AskMQ according to the Special Consideration policy. Extensions can only be granted if they meet the Special Considerations policy and are submitted via <https://ask.mq.edu.au/>. This will ensure consistency in the consideration of such requests is maintained.
- Late submissions: Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – two (2) marks out of 100 will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted more than seven (7) days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g., quizzes, online tests. Late penalties are applied by unit convenors or their delegates after tasks are assessed.
- If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.
- Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

Requesting a re-assessment of an assignment

If you have **evidence** that your task has been incorrectly assessed against the grade descriptors you can request a re-mark. To request a re-mark you need to contact the unit convenor within **7 days** of the date of return of the assignment and provide a **detailed assessment of your script against the task criteria**. Evidence from your assignment must be provided to support your judgements.

Note:

- Please do not request a re-mark for a Failed assessment as they are all double-marked as a part of the moderation process.
- The outcome of a re-mark may be a **higher/lower or unchanged grade**.
- Grades are *standards referenced* and effort is NOT a criterion.

University policy on grading
