However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Session 2 Learning and Teaching Update
The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of units with mandatory on-campus classes/teaching activities.

Visit the MQ COVID-19 information page for more detail.

Prerequisites
(STAT150 or STAT1250 or STAT170 or STAT1170 or STAT1371) and
(COMP115 or COMP1000 or ISYS114 or COMP1350)

Co-requisites

Unit description
Growing quantities of data collected by business, government, the internet and social media provide opportunities for better management and a better society through evidence-based decision-making and the provision of new services. This unit introduces students to quantitative techniques and approaches to achieve these goals. Students will gain hands-on experience with software tools to analyse and present quantitative data. Students will be introduced to the discovery and analysis of social networks, social trends, and relationships amongst industry factors using spreadsheets and data visualisation software. The unit thus is an introduction to the technical and philosophical skills required, and the many applications of business analytics.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Explore different methods of data analysis and presentation for social networks, complex systems and relational links.
ULO2: Create interactive models using appropriate software to aid decision-makers in understanding interrelationships and trends.
ULO3: Apply intermediate skills in spreadsheets and data visualisation software to
demonstrate trends and relationships among factors in industry and society.

**ULO4:** Analyse government, industry and social media data to identify relationships and trends.

**ULO5:** Evaluate conclusions drawn from different data and analytic tools.

## General Assessment Information

Assessment criteria for all assessment tasks will be provided on the unit iLearn site. It is the responsibility of students to view their marks for each within-session-assessment on iLearn within 20 days of posting. If there are any discrepancies, students must contact the unit convenor immediately. Failure to do so will mean that queries received after the release of final results regarding assessment tasks (not including the final exam mark) will not be addressed.

### Late submissions of assessments

Sometimes unavoidable circumstances occur that might prevent you from submitting an assessment on time and, in that case, you may be eligible to lodge a **Special Consideration request**.

Unless a **Special Consideration request** has been submitted and approved, please note that no extensions to assessment deadlines will be granted. Assessments that are submitted late will attract a late penalty:

1. There will be a deduction of 10% of the total available marks for each 24 hour period or part thereof that the submission is late.
2. No assessment will be accepted more than 72 hours after the original due date and time (incl. weekends).
3. No late submissions will be accepted for timed assessments (e.g., quizzes, online tests) or for tasks with a weighting of 10% or less.

## Assessment Tasks

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spreadsheet Functions</td>
<td>15%</td>
<td>No</td>
<td>Week 4</td>
</tr>
<tr>
<td>Data Visualisation</td>
<td>25%</td>
<td>No</td>
<td>Week 8</td>
</tr>
<tr>
<td>Take-home Exam</td>
<td>60%</td>
<td>No</td>
<td>University examination period</td>
</tr>
</tbody>
</table>

### Spreadsheet Functions

- **Assessment Type:** Quantitative analysis task
- **Indicative Time on Task:** 10 hours
- **Due:** **Week 4**
- **Weighting:** 15%
Students will be asked to demonstrate skills in data manipulation.

On successful completion you will be able to:

- Explore different methods of data analysis and presentation for social networks, complex systems and relational links.
- Apply intermediate skills in spreadsheets and data visualisation software to demonstrate trends and relationships among factors in industry and society.

**Data Visualisation**

Assessment Type 1: Practice-based task
Indicative Time on Task 2: 20 hours
Due: **Week 8**
Weighting: **25%**

Students will use visualisation software to extract spreadsheet data to demonstrate interrelationships in different ways appropriate to the task.

On successful completion you will be able to:

- Apply intermediate skills in spreadsheets and data visualisation software to demonstrate trends and relationships among factors in industry and society.
- Evaluate conclusions drawn from different data and analytic tools.

**Take-home Exam**

Assessment Type 1: Examination
Indicative Time on Task 2: 30 hours
Due: **University examination period**
Weighting: **60%**

The take-home exam will have task-based questions covering both quantitative analysis and data visualisation.

On successful completion you will be able to:

- Explore different methods of data analysis and presentation for social networks, complex
systems and relational links.

- Create interactive models using appropriate software to aid decision-makers in understanding interrelationships and trends.
- Apply intermediate skills in spreadsheets and data visualisation software to demonstrate trends and relationships among factors in industry and society.
- Analyse government, industry and social media data to identify relationships and trends.
- Evaluate conclusions drawn from different data and analytic tools.

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Textbook

Camm et al also offer the text book online and the course will be structured around MindTap.

Technology used and required

Students should have access to standard spreadsheet software. We will be using MSEEcel® and making reference to similar software by other brands such as Minitab®. We will make extensive use of Data-Visualisation software, Tableau®. We have a teaching license for the session, and students will be given a key to download the full program for use in study at home.

Inherent requirements

Students are expected to install MSEEcel® and Tableau® (either Windows or Apple OS) to their own laptops and/or computers. They will use the software in the online-lecture and tutorials.

Recommended readings

Suggested online readings, and resources are presented in each week’s exercises. Without a formal textbook students will need to routinely read the sources shared in the unit website, and contribute others that they find.

Unit Web Page

Course material is available on the learning management system (iLearn). The general online website is http://ilearn.mq.edu.au
Unit Schedule

We are still learning about the expectations of industry, and the capabilities and interests of our students, so we may make small changes to the timing and attention to different topics as the unit progresses.

<table>
<thead>
<tr>
<th>Week</th>
<th>Content</th>
<th>Text Book Sections</th>
</tr>
</thead>
</table>
| 1    | Introduction: Text Book (Camm et al) and MindTap.  
      Basic Spreadsheet Functions | 1.1, 1.2, 1.3, 1.4, 1.5  
      2.1, 2.2, 2.3, 2.4  
      Appendix A |
| 2    | Spreadsheet Functions continue:  
      Graphs & Data | 2.5, 2.6, 2.7, 2.8, 2.9 |
| 3    | Advanced Spreadsheet Functions.  
      Tidy data, Pivot Tables, Pivot Charts | 3.1, 3.2, 3.3 |
| 4    | Statistical Inferencing  
      Model building – Regression and Multiple Regression | 6.2, 6.5, 6.6  
      7.1, 7.2, 7.3, 7.4, 7.5  
      Spreadsheet Functions assignment (15%) due. |
| 5    | Tableau  
      Guest Speaker | |
| 6    | Dashboards in Tableau  
      Time Series analysis and Forecasting | 8.1, 8.2, 8.3, 8.4 |
| 7    | Storyboards in Tableau  
      Guest Speaker | |
| 8    | Spreadsheet Models | 10.1, 10.2, 10.3, 10.4  
      Data visualisation assignment (25%) due. |
| 9    | Modelling Uncertainty – Events and Probabilities | 5.1, 5.2, 5.3, 5.4 |
| 10   | What-if Sensitivity Analysis | 11.1, 11.2, 11.3, 11.4 |
| 11   | Optimisation | 12.1, 12.2, 12.3, 12.4, 12.5 |
| 12   | Data Mining | 4.1, 4.2, 4.3 |
| 13   | Summary and looking to next semester – Logistical regression | 9.3 |
Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Grade Appeal Policy
- Complaint Management Procedure for Students and Members of the Public
- Special Consideration Policy (Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)

Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Student Support

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

Learning Skills

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering
We will use the new edition of the textbook.

There is a final exam to replace the assessments 3 and 4 offered in previous sessions.
