#### Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

Cities are the drivers of the national and international economy. This unit explores the role of firms, households and governments in shaping economic processes in cities, with a focus on Australian cities. The unit will explore four key themes. First, the unit investigates the major international and domestic drivers of the urban economy. Second, the unit explores some of the main theoretical approaches used in economic geography to understand urban economic processes. Third, financial processes related to infrastructure delivery and land/housing economics are investigated. Finally, issues of urban productivity, employment and disadvantage are explored. Through the investigation of theory, economic and planning policy and detailed analysis of case studies, students will develop an understanding of the complex economic processes which shape cities.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Explain the key theoretical frameworks, concepts, definitions and measures used for understanding economic processes in cities

**ULO2:** Evaluate the economic processes which drive the spatial structure of cities in

Australia and internationally

**ULO3:** Analyse economic and employment data to explore economic processes, governance and funding at the urban scale.

**ULO4:** Critically evaluate the role of urban and economic planning policy in shaping economic processes between and within cities.

## General Assessment Information

## Delivery and Resources

### Classes

Pre-recorded lectures and supporting resources will be uploaded each week (by 9am on Tuesdays). Tutorials start in week 2 (Tuesday 3rd August). Internal students can attend the face-to-face tutorial, or zoom tutorial. For external students, tutorials take place through weekly discussion forums. You should listen to the pre-recorded lecture, prior to making contributions to the discussion forums and tutorials.

### Reading

There are a range of journal articles and chapters that are required reading. These will be listed on iLearn and available via Leganto.

### Technology used and required

All enrolled students have access to the GEOP3070 website via iLearn. iLearn will provide access to lectures (powerpoint presentations for download and recordings through the University's Echo lecture recording facility) as well as readings, links and forum discussions. Regular access to iLearn is required in order to complete the unit.
