Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

The purpose of this unit is to introduce students to new economic and legal aspects of sustainable development. The unit covers key topics and emerging themes in sustainable corporate governance and financing. It explores the principles of corporate governance and the manner in which these principles link to sustainability. It also looks at diverse ways in which the links between corporate governance and sustainability can be strengthened and in this context, examines the role of financing (including socially responsible finance). Markets, regulatory strategies, taxes, financial institutions, investment approaches and the insurance industry have responded to some aspects of this global challenge. This provides the wider context for the changing role and legal obligations of the modern corporation. Corporate approaches to environmental management are studied in the light of new economic realities, requirements, risks and standards.

CASE STUDIES / PARTICIPATION - 50%

Participation is an important part of the assessment for this course. Combined with case studies, participation makes up 50% of the total grade.

Participation has five components:

- In Class Participation - 10%

This component is based on attendance and engagement in tutorials. Asking and responding to questions during tutorials and demonstrating understanding of relevant content each week. Please note, this participation component is not based solely on attendance and you DO NOT need to apply for SC for any missed tutorials. If you miss live participation in more than two tutorials, you should contact your tutor directly.

- Online Participation - 10%

This component is secured via pop quizzes in weeks 2 through 11. These quizzes are each worth 1% of your grade and require you to answer a single question based on the lecture and reading material for that week. Pop quizzes will take a variety of forms and are not necessarily multi-choice. The pop quizzes are open all week. You have 10 minutes to answer the question and you will receive immediate feedback once you complete the quiz.

- Case Study Reflections - 30%

This component involves three reflections throughout the semester on case studies discussed in the course. Details will be provided in the first tutorial and case study activities will involve a combination of in class and online engagement activities.

FINAL ASSESSMENT ESSAY - 30%

You will be required to write a 2,500 word research essay (inclusive of footnotes) that

demonstrates your critical understanding and engagement with the subject matter from this course AND your ability to conduct independent research. This essay will provide 30% of your final grade. Students will have two essay topics to choose from, which will be released on Monday 18th of October. The essay will be due on 7 November at 5pm.

Changes from Previous Offering

Please note, this course has been updated from previous offerings. The subject matter covered in this course is best summarised below:

This course is an advanced elective that focuses on modern issues in corporate governance and corporate regulation from both Australian and international perspectives.

We will build on your foundational understanding of what a corporation is and how it operates. Then we dive in to more complex and interesting questions and issues:

- Who's interests do corporations serve?
- Should corporations be held responsible for social or environmental harms? What about human rights?

- What is the role of law in corporate governance?
- What are the challenges for governing interactions inside the corporation and between the corporation and outside actors?
- What is Corporate Social Responsibility (CSR) and how does it operate in practice
- How are director's duties relevant to corporate governance and CSR?
- What are some emerging international trends in corporate governance and what do they tell us about the future of the corporation and its role in society?

This is not an exhaustive list. Other issues, questions and case studies will arise as we analyse the legal obligations and complex relationships that exist between corporations and other actors.
