#### **Session 2 Learning and Teaching Update**

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit introduces students to various aspects of translation and interpreting theories and their application to translation and interpreting practice. Theories relevant to translation practice are discussed, focusing on linguistic theories, functionalist theories, and discourse-based approaches. The overview of interpreting theory covers equivalence, comprehension, issues relating to language proficiency, and interpreting processes in diverse modes. The various approaches adopted in the unit aim to broaden students' perspectives on translation and interpreting and inform their studies.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
