Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
As part of Phase 3 of our return to campus plan, most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to timetable viewer. To check detailed information on unit assessments visit your unit’s iLearn space or consult your unit convenor.

## Unit description
This unit will provide students with the opportunity to participate in an independent research project under a supervisor from the Department of Cognitive Science. Students will have the opportunity to participate in multiple stages of research which may include developing research plans, writing proposals, conducting experiments, analysing data, and reporting results. Especially ambitious and productive students may earn the opportunity to present their findings at a scientific conference, and in rare cases, may even earn authorship on a peer reviewed paper. Admission to the unit is subject to supervisor availability and approval.

# Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

# Learning Outcomes
On successful completion of this unit, you will be able to:

- **ULO1**: Formulate an original research question and develop an appropriate experimental design.
- **ULO2**: Develop and competently use practical laboratory skills and appropriate research methods to investigate a research question.
- **ULO3**: Critically evaluate and synthesise the primary scientific literature relevant to their research topic.
- **ULO4**: Communicate research in written form.
- **ULO5**: Interact with research group members and develop peer networking skills.
General Assessment Information

This is a non-graded unit, as the learning outcomes are best achieved through a satisfactory/unsatisfactory assessment.

Assessment Tasks

</tbody>
</table>

Research group participation

Assessment Type 1: Participatory task
Indicative Time on Task 2: 10 hours
Due: Throughout as organised with supervisor
Weighting: 15%

Attendance at, and active engagement with, the relevant research group meetings and seminars. You will also have to participate in at least 3 student group meetings and/or seminars throughout the session.

On successful completion you will be able to:

- Interact with research group members and develop peer networking skills.

Research log book

Assessment Type 1: Log book
Indicative Time on Task 2: 10 hours
Due: Throughout
Weighting: 20%

Create and maintain a research log book documenting supervisory meetings, research group meetings, as well as the development and conduct of your research. You will have to include an annotated bibliography of relevant readings.
On successful completion you will be able to:

- Develop and competently use practical laboratory skills and appropriate research methods to investigate a research question.
- Critically evaluate and synthesise the primary scientific literature relevant to their research topic.
- Communicate research in written form.

**Research presentation**

Assessment Type 1: Presentation  
Indicative Time on Task 2: 14 hours  
Due: As organised with convenor  
Weighting: 20%

Presentation of your research, including your plan and results.

On successful completion you will be able to:

- Formulate an original research question and develop an appropriate experimental design.
- Develop and competently use practical laboratory skills and appropriate research methods to investigate a research question.
- Critically evaluate and synthesise the primary scientific literature relevant to their research topic.
- Interact with research group members and develop peer networking skills.

**Research report**

Assessment Type 1: Report  
Indicative Time on Task 2: 28 hours  
Due: 5pm Fri 4th June  
Weighting: 45%

Research report similar to a short journal article to document your research. This report will include a description of the relevant literature, as well as the methods and results of your research.
On successful completion you will be able to:

• Formulate an original research question and develop an appropriate experimental design.
• Develop and competently use practical laboratory skills and appropriate research methods to investigate a research question.
• Critically evaluate and synthesise the primary scientific literature relevant to their research topic.
• Communicate research in written form.

1 If you need help with your assignment, please contact:

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Each student will work with an individual supervisor, and the details of participation and relevant meetings will be arranged individually. In addition, the students will participate in three group meetings with the convenor & other supervisors.

There will be an iLearn site for shared resources and discussions. The group meetings will be scheduled to be at a time convenient to the students - the dates for this will be organised through iLearn in Week 1.

The convenor is available for additional support if needed - please email for an appointment.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

• Academic Appeals Policy
• Academic Integrity Policy
• Academic Progression Policy
Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Getting help with your assignment
- Workshops
- StudyWise
- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

https://unitguides.mq.edu.au/unit_offerings/136720/unit_guide/print
Student Enquiry Service

For all student enquiries, visit Student Connect at ask.mq.edu.au

If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support

Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
