Unit description
This unit is the first of the two units in cost and management accounting that are required for accreditation with CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA). The unit explains how cost information is generated and used in organisations for decision making purposes. There are three main parts to the unit: 1) using costs for decision making; 2) costing techniques (job/process costing and cost allocations); and 3) budget setting and evaluating performance against the budget. By the end of the unit, students are able to distinguish between the various product costing techniques available, solve problems by identifying and selecting appropriate courses of action, and demonstrate an understanding of budgeting techniques and the behavioural issues associated with budgeting practices.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:
ULO1: Distinguish between management and financial accounting and assess business operations using various product costing, budgeting and decision-making techniques
ULO2: Discuss and analyse management accounting issues and information.
ULO3: Use Microsoft Excel for fundamental managerial accounting planning, control and evaluation tasks.
ULO4: Apply appropriate management accounting concepts and techniques to formulate informed solutions to business problems.

- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

**Classes**

During the session, students should attend weekly three hours classes per topic consisting of a one-and-half hour lecture and a one-and-half hour tutorial. The lecture will be online (recorded). The lecture will also be available via echo on the unit website. Tutorials are available either face to face on campus or online via zoom. Students are advised to note that any changes to tutorial classes must be made online through eStudent. Students wishing to change their tutorial time should login to eStudent and enrol in a class where there is a vacancy. Staff members WILL NOT deal with tutorial changes unless there are exceptional circumstances. It is each student’s responsibility to know which tutorial group they have been allocated to. Students will not be awarded any tutorial marks unless they attend the class in which they are formally enrolled.

The timetable for classes can be found on the University web site at: [http://www.timetables.mq.edu.au](http://www.timetables.mq.edu.au).

The following information will be available on the website: • Assessment guide • Important announcements • Lecture notes • Staff consultation hours • Staff contact details • Tutorial questions and solutions • Online practice quizzes • Other relevant material

You are encouraged to regularly check the website and use it as an information and resource center to assist with your learning.

**Teaching and Learning Strategy**

The course is structured around a 1.5 hour lecture and a 1.5 hour tutorial per topic. Lectures are intended to provide students with an overview of the main concepts and techniques. Lectures may not cover all of the material and students are expected to read all of the prescribed references prior to the lecture. Tutorials will be run on a workshop basis with students being given the opportunity to apply the concepts to additional problems and exercises. The tutorials are designed to provide an interactive environment in which students will be able to discuss issues and problems with each other, and their tutor, in order to improve their understanding of material. Regular class attendance, reading of prescribed references and the completion of tutorial and revision questions are essential for satisfactory progress in this course.

Lecture slides and additional material for tutorials and lectures will be available to download via the unit website. Any other announcement regarding the unit will also be available from the website.
