Unit description
This unit is the first practical placement unit for the Master of Clinical Psychology program and is conducted in the Macquarie University Psychology Clinic on campus under close supervision. It provides the opportunity to put theory/techniques gained in coursework units into practice and develops the provisional psychologist's identity as a Clinical Psychologist. Activities include face-to-face assessment and treatment of genuine clients; professional administrative tasks such as risk management, note keeping and report writing; and supervision activities, both individual and group with an overall workload of approximately 500 hours. Students are required to complete at least a thousand hours across all placements in the program to meet accreditation requirements. By the time students finish this first placement unit, they will have gained basic competencies in 10 domains as identified by the accrediting body APAC as Core Competencies to become a Clinical Psychologist.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Apply depth and breadth of knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing
evidence-based interventions

**ULO2:** Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge.

**ULO3:** Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages.

**ULO4:** Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia’s code of ethics

**ULO5:** Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs
