Unit description
This unit comprises an external practical placement of approximately 250 hours workload. The type of external placement experience is determined largely by APAC, who require specific experiences over the three external placement units. The experiences can be completed in any order. Placements vary in the exact experiences available to students, but can include assessing clients; applying various therapeutic interventions; and developing the professional skills of a clinical psychologist. In this unit students are still supervised closely but develop increased independence. Students are required to complete at least a thousand hours across all placements in the program to meet accreditation requirements.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Apply depth and breadth of knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
ULO2: Demonstrate higher level critical thinking skills in their ability both to generate and
evaluate new, professionally-oriented knowledge.

**ULO3**: Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages.

**ULO4**: Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia's code of ethics.

**ULO5**: Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs.

**Samples of case reports**

Assessment Type 1: Report

Indicative Time on Task 2: 2 hours

Due: **End of placement**

Weighting: **10%**

**This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)**

This hurdle assessment requires students to submit three samples of a case report, formulation and complete case notes of each client, together with the end of placement review.

On successful completion you will be able to:

- Apply depth and breadth of knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions.
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge.
- Communicate effectively across a wide range of client groups, colleagues and other...
professionals, using a variety of formats to function empathically within and across cultures and life stages.

- Apply knowledge of the legislative frameworks relevant to clinical psychologists and undertake practice according to professional standards and the Psychology Board of Australia’s code of ethics
- Demonstrate the entry level capabilities required of practising clinical psychologists, along with the professional and personal skills for assessing continuous development needs.

End of placement review (EPR)

Assessment Type 1: Work-integrated task
Indicative Time on Task 2: 2 hours
Due: End of placement
Weighting: 30%

This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

This is an end of placement assessment of competency, conducted in the placement setting with the field supervisor using a standardised, validated competency assessment (CYPRS) tool. Feedback is on developing competency to a PASS; level on each of eleven domains, with PASS; specified as a score of 4 out of 5 on each domain.

On successful completion you will be able to:

- Apply depth and breadth of knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
- Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge.

Weekly Supervision (WIL)

Assessment Type 1: Work-integrated task  
Indicative Time on Task 2: 40 hours  
Due: Throughout the placement  
Weighting: 30%  
This is a hurdle assessment task (see assessment policy for more information on hurdle assessment tasks)

Students participate in case management and intervention under close supervision of field supervisors appointed as Macquarie University Adjunct Fellows. Students will be assessed on formative assessment and treatment skills; professional conduct; self-reflection via log book;
ethics and communication skills including professional report writing. At the end of placement a declaration form confirming hours is also required.

On successful completion you will be able to:

• Apply depth and breadth of knowledge and scholarly understanding required of clinical psychologists in determining client needs and designing and implementing evidence-based interventions
• Demonstrate higher level critical thinking skills in their ability both to generate and evaluate new, professionally-oriented knowledge.
• Communicate effectively across a wide range of client groups, colleagues and other professionals, using a variety of formats to function empathically within and across cultures and life stages.
