Unit description
This course-wide Capstone unit is designed to be taken by students in their final session of study within the Bachelor of Commerce. Students work collaboratively with peers and advisors to integrate the discipline-specific knowledge acquired within the course and to address practical business challenges requiring cross-disciplinary and cross-functional insights, knowledge and skills. Assessment is designed to assure student proficiency in course learning outcomes. Students work in self-managing cross-functional teams to complete a session-long project, preparing individual and group reports that are assessed by academic staff. The unit aims to prepare students for ethical and sustainable leadership in their future workplaces as team players. Learning activities may include a combination of case study/ies, business simulation and seminars/workshops.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

Learning Outcomes
On successful completion of this unit, you will be able to:

- **ULO1**: Integrate discipline specific knowledge and skills and apply subject knowledge critically, analytically with appreciation of cross disciplinary requirements.
- **ULO2**: Identify and analyse issues from a variety of ethical and sustainability positions as applied to the business context.
- **ULO3**: Reflect on outcomes of working in multi-functional teams to apply teamwork knowledge and skills for effective collaboration to achieve business solutions in a range of contexts.
General Assessment Information

All group based tasks will be weighted at 50% for the individual contribution and 50% for the group contribution.

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Learning and Teaching Activities
For the fully online streams - all learning and teaching activities will be conducted online via iLearn.

For the partial online streams - a blend of online and F2F will occur.

Registering in a seminar in your timetable is your commitment to attend every week:
You will need to commit to your timetable for the rest of the session. 80% of your grade will depend on work done during seminars in teams.

You will be placed in teams, where scaffolded team tasks will be worked through during each week’s seminar. These scaffolded tasks ultimately work towards your Capstone Project which is a highly-weighted assessment component.

In other words, non-attendance at seminars will jeopardise both your individual component and the group component of the Capstone Project.

Recommended Texts and/or Materials
Resources uploaded on iLearn.

Technology Used and Required
Students will need to use online tools for collaboration with their team members.

Teaching and Learning Strategy

The unit is designed as a capstone unit. A capstone unit is designed to bring all your knowledge together to solve a problem.

There is no new content in the unit - rather a presentation of frameworks to consolidate all your content learnt in your degree so far.

This is a final year unit of study which integrates the material and skills presented across the degree.

Students will be placed in mixed-major teams to solve real-world problems.

These real-world problems will revolve around the UN Sustainable Development Goals.

Student will address how commerce and business can play their part in achieving these goals.

Students will construct an artefact that integrates all their learning, as well as demonstrate an empathy & appreciation for other disciplines.

Students will write a reflective report about how their own major is an integral part of the puzzle in the diverse world of commerce.

Students will demonstrate agility by dealing with shocks that occur to the economy and responding to these effectively.

Students will demonstrate excellence by presenting their projects online, ready to be showcased to the job market.
