Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

Liveability is used to define the quality of social, environmental, economic and infrastructural life in cities and regions. 'Liveable' is often seen as an antidote to a range of problems, such as urban sprawl and the lack of connectivity between different infrastructures, land-uses and communities. In this unit, students will analyse the meanings of liveability and consider policies and projects related to making cities and regions more liveable, such as smart and green infrastructure, transport and mobilities, urban activation and place-making. The unit focuses on the role of planning in making connections that improve the relationships between infrastructure, mobility and place. Overall, students will gain critical insights and practical knowledge of urban policies, governance structures and plans, as well the ethics and values, that underpin the goal of creating more liveable and connected cities.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically discuss the interconnections between infrastructure, mobility and place

ULO2: Engage with and critique theoretical concepts related to liveable cities

ULO3: Evaluate how ideas of liveability are interpreted and adopted in a range of urban and regional contexts

ULO4: Communicate to diverse audiences using appropriately selected written, oral and visual means

General Assessment Information

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline.

No late submissions will be accepted for the quizzes as they are timed assessments.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Each week you are expected to:

1. View the recorded lectures and any associated online material posted that week.

2. Complete assigned readings available on Leganto **prior** to the tutorials
3. Participate in tutorials where weekly readings will be discussed and activities conducted that build knowledge and skills.

In addition you are required to complete all assessment exercises.

GEOP3030 Liveable Cities uses a diverse range of digital resources, including an iLearn page where slides and audio from lectures will be posted, the Macquarie University Library for access to peer reviewed journal articles accessed via Leganto, and the Internet for news about, and discussions of, liveable cities. You will be required to have access to word processing technology and access to iLearn to complete and submit assignments.

For online tutorials, it is expected that you can attend and participate in a location where you are able to speak freely and engage constructively with the class. This may require using zoom backgrounds or headphones to ensure your privacy.
