**Unit description**
This unit examines a range of topical real-world issues in applied finance. The issues will depend on current financial and economic market conditions. Potential areas of interest are to be drawn from the fields of investment management, the financial system, corporate financial strategy and risk management. The focus will be on current and likely future conditions, and will seek to combine underlying theory, research skills and a strong practical emphasis. Personal communication, negotiation and collaborative skills will be further developed. This Capstone unit will be undertaken towards the end of the program of study.

**Important Academic Dates**
Information about important academic dates including deadlines for withdrawing from units are available at [https://students.mq.edu.au/important-dates](https://students.mq.edu.au/important-dates)

**Learning Outcomes**
On successful completion of this unit, you will be able to:

**ULO1**: Synthesise knowledge of advance finance theories, models and concepts and recent research issues and apply it to a practical research-based project in applied finance.

**ULO2**: Design and execute a major project that solves a current business challenge in...
applied finance, in a practical and well-justified manner.

**ULO3:** Effectively communicate complex information, decisions and recommendations to a professional audience.

**ULO4:** Reflect on skills and knowledge gained and recognise common preconceptions and assumptions within the finance profession.

Delivery and Resources

Learning and Teaching Activities

Strategy: Programs in the Applied Finance Centre adopt a deep teaching and learning strategy. Students acquire and retain knowledge and can make sense of the issues and concepts and apply them in the “real world”. The program relies heavily on student engagement and participation by: (a) Continuous learning throughout the term. This is encouraged through a combination of students undertaking prescribed reading throughout the units and/or completion of practice problems, online activities, case studies, assignments, class discussions, etc and interaction via forums; and (b) Assessments, which enable the student to demonstrate his/her understanding of the learning objectives achieved through the continuous learning.

Student Participation: This is a blended unit where students need to complete assigned activities before live Zoom sessions and weekend sessions. Students participate in this unit by: (a) Actively engaging with the videos and required readings of this unit; (b) Working systematically through and completing online activities; (c) Interacting in forums and face-to-face/online sessions, and (d) Completing all assessment tasks.
