Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of units with mandatory on-campus classes/teaching activities.

Visit the MQ COVID-19 information page for more detail.

Unit description
What is justice? What is fairness? This unit explores these important questions by examining leading philosophical theories of justice, including John Rawls's influential model, as well as the main political approaches that are associated with them, such as liberalism, libertarianism, republicanism, and socialism. We assess the capacity of these theories and approaches to respond to pressing social justice issues. We focus on issues of inequality and diversity in society by asking: what degree of inequality, if any, can be justified? We also examine broader questions around social and retributive justice, such as: How can we justify punishing those who violate justice? What are the obligations of democratic citizenship? Is our society and its political institutions racist, sexist, or unfairly biased against cultural minorities? What do we owe the poor in other countries? And is our treatment of animals and the environment a matter of justice?
