Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

How does planning influence the design of cities, neighbourhoods, streetscapes and sites? This unit explores the relationship between planning and design. It builds upon the student's skills developed across the many subject areas of the planning program, including real world creative problem solving, collaboration, plan preparation and evaluation, inquiry based skills, and workplace readiness. The unit examines the tools available to planners to guide the built outcomes of places and provides an overview of the elements of urban design. Through exposure to subject matter experts, site visits and workshop exercises students will further develop the knowledge skills required of planners.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Evaluate the role of planning for healthy built environments.

ULO2: Identify and discuss the planner's role in communicating issues to different audiences.

ULO3: Prepare strategic planning documents that show an understanding of the relationship between planning and design.

ULO4: Explain and discuss the interplay between planning and design and the planner's

various roles in this process.

ULO5: Communicate and present complex issues clearly and succinctly.

ULO6: Apply practical skills expected of a planner in the workplace.
