Unit description

In this unit students proceed to a deeper understanding of the structure of the Italian language and develop skills in all areas of the Italian language (reading, writing, listening and speaking) to an advanced level of proficiency. Students learn to discuss a wider range of topics as well as substantially increase their knowledge of vocabulary. Emphasis is placed on contemporary standard Italian in the widest possible context and students will develop an awareness of regional variations of the language and the use of dialects. Much attention is given to the active use of the language. This unit also focuses on further increasing students' skills in intercultural communication so that they will be able to communicate in a manner which is culturally as well as linguistically appropriate. Interactive seminar activities based on the use of authentic Italian language materials, provide students with opportunities to use Italian as much as possible.
