Unit description
This unit explores the development of ancient Egyptian culture in its Near Eastern context from the Predynastic period to the end of Late Antiquity (ca. 5000 BCE to 1000 CE) as reflected in the archaeological record. The themes studied will deal with both funerary and settlement archaeology and isolate key developments in burials, dwellings, religious buildings and objects of daily use. The unit will draw on the experience of extensive fieldwork by Macquarie University staff in Egypt and the Near East and incorporates object based learning drawing on the Egyptian antiquities collection in the Macquarie University History Museum. Students will gain a solid understanding of the geography, chronology and archaeology of the ancient Egyptian culture, which will be contextualised within developments in the wider region of the Near East, as well as an understanding of the key problems and controversial areas of interpretation as a basis for further specialised study in the discipline.

KICKSTARTING AHIS1250

This unit includes a KickStart package, designed to help you get a head start with your studies. KickStart is a package of resources and activities in iLearn that is specific to studying this unit. Your package may include welcome videos from the Unit.
Convenor, quizzes (not counting toward your final grade), insights from industry experts and tips from previous students on how to succeed in the unit.

**UNIT REQUIREMENTS AND EXPECTATIONS**

**Weekly schedule**

This unit will be structured following a *Flipped classroom model*, which describes a reversal of traditional teaching where students gain first exposure to new material outside of class, usually via reading or lecture videos, and then class time is used to do the harder work of assimilating that knowledge through strategies such as problem-solving, discussion or debates.

This unit will be taught via a blended delivery of content and instruction using a multi-media approach such as video lectures, 3D digital artefacts in addition to accessing reliable websites as well as online databases and journals. Through this approach you will acquire detailed knowledge of the relevant subject matter, the skills to locate, utilise and critique primary and secondary sources and a strong understanding of the required research methods for the discipline.

**This unit is comprised of 2 key elements:**

1. **Weekly video lectures** on iLearn to prepare for . . .
2. 2 hours of **instruction with staff**: 1 hour Seminar via Zoom and 1 hour Tutorial (either on campus or via Zoom)
3. and **individual** study and preparation
   - Students are expected to attend all classes (Seminars and Tutorials), unless there are extenuating circumstances.
   - For Seminar and Tutorial times please consult the MQ Timetable website: [http://www.timetables.mq.edu.au](http://www.timetables.mq.edu.au). This website will display up-to-date information on your classes and classroom locations.

Information will be communicated regularly via iLearn, which will play a pivotal role throughout the session and will be your central hub for announcements, instructions, and participatory tasks. Each week will be structured as follows:

**BEFORE SEMINARS | Preparation**

- Watch **video lectures** and take notes in preparation for the Seminar and your Module Quizzes
- Complete short and specialised **readings** in preparation for the weekly Seminar and Tutorial
DURING SEMINARS AND TUTORIALS | Building Knowledge

- Attend the Seminar and Tutorial and engage with the teaching staff and your peers.

AFTER SEMINARS AND TUTORIALS | Consolidation

- Complete any outstanding tasks for the week and work on pending assignments
- Engage with a series of optional exercises and extension tasks (see iLearn for details)
