Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit provides students with applied knowledge in the area of performance and event management in the performing arts and entertainment industries including talent management, marketing, social media strategies, event planning, production, publishing and distribution in both live events and the growing area of online arts and entertainment. This unit will develop your management skills in a broad range of contexts across performance and event management in the performing arts and entertainment industries including corporate and online events. No prior experience of the performing arts and entertainment industries is required.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: analyse discipline-specific creative, managerial, production and communication skills.

ULO2: apply concepts, theories and frameworks across management and event production in the creation of an event.

ULO3: manage resources effectively.

ULO4: work effectively in collaborative creative teams from initial concept to realisation.

General Assessment Information

Attendance It is vitally important for all students to attend/view online lectures and attend all the tutorials for this unit either in face-to-face or online formats. Lectures and tutorials deliver critical unit content central to meeting the learning outcomes in the course. Tutorials provide time for students to discuss ideas with each other and at times to develop work in groups, and through that process develop networks, explore different perspectives, and gain collaborative skills. Tutorials also facilitate time for students to access the assistance of the convenor and allows students to benefit from feedback on their work.

Independent Work Students are expected to work independently outside of scheduled tutorial times when they are working on all assessments. For example, students in this course will need to do their own reading of relevant texts and at times liaise and work with group members outside scheduled class time.

Assessment standards Assessment standards which are used to evaluate students' work in the assessment tasks are laid out in the assessment rubrics. Detailed information will be provided in class and available from iLearn.

Referencing Style The preferred referencing style for this unit is APA. Other styles such as Harvard may be used as long as all necessary information is provided and a consistent approach is taken.

Electronic Submissions Assessments for this unit are to be submitted online via 'Turnitin' which can be accessed through the MMCC3035 iLearn website. Detailed information will be provided in class and available from iLearn.

Feedback Feedback will be given to students in tutorials in face-to-face and online formats, and also in the form of text comments in Turnitin. Students can also book a Zoom consultation via email, and can contact the convenor directly via email or through the contact teaching staff direct private link on the ilearn page.

Specifically for the Plan to Realisation assessment feedback will be delivered in the tutorials in face-to-face and online formats and via Turnitin for the group presentation (weighting of 30% of the assessment), and via Turnitin for the individual report (weighting of 70% of the assessment). For the Case Study assessment feedback will be delivered via Turnitin and also whole class feedback will be delivered in a debrief in the tutorials in face-to-face and online formats.

Late Submission Penalty

Please note that the University and the Faculty of Arts have launched a new assessment policy effective as of 1 July 2021. This new policy particularly affects LATE SUBMISSION OF ASSIGNMENTS.

The Faculty policy in relation to late assessment submissions is as follows:

Unless a Special Consideration request has been submitted and approved, (a) a penalty for

lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessments – e.g. quizzes, online tests, etc.

To be very clear:

Unless you have applied for special consideration and had your application approved, for each day your assignment is late, 10 marks will be deducted. For example, if you submit your assignment 7 days late, 70 marks will be deducted, which means you will fail that assignment. If your assignment is more than 7 days late (including weekends), you will get 0 for your assignment. These are serious penalties that will substantially alter your final grade and even determine whether you pass or fail this unit. Please make every effort to submit your assignment by the due date.

If you find you cannot submit your assignment on time, please apply for Special Consideration through AskMQ. Make sure you read Macquarie University's policy regarding Special Consideration requests before you apply:

<https://students.mq.edu.au/study/assessment-exams/special-consideration>
