Unit description

What does it mean to be an entrepreneur in the performing arts and entertainment industries in a digital age? This unit examines models of creative entrepreneurship in the performing arts and entertainment industries. In the context of the digital era we live in, the unit will examine various revenue and monetization strategies for sustainable projects and careers. It considers collaborative approaches to production, startups, models for artist-run spaces and studios, self-initiated art projects and pick-up companies, curatorial practices, artist management, the role of the producer and skills to navigate potential funding, sponsorship, philanthropic support, and revenue streams.

This unit will enable students to better navigate their transition into industry-based opportunities in the performing arts and entertainment industries. No prior experience of the performing arts and entertainment industries is required.
