Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

The performing arts and entertainment industries engage with emerging media and social media technologies as tools for marketing and promotion. Students will experiment with various media technologies as they relate to the performing arts and entertainment industries, and in doing so encourage students to create future visions for how the industry will engage audiences.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: evaluate the influence of media technologies and digital platforms on the performing arts and entertainment industries.

ULO2: interpret developments in contemporary performance practices that deal with questions of human-technology relationships in their wider social, cultural, and artistic

contexts.

ULO3: analyse the utilisation of media technologies by arts practitioners to achieve engagement and distribution goals in the performing arts industries.

ULO4: communicate and devise plans for performance experiments that actively engage with media technologies.

General Assessment Information

Late Submission Penalty:

Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply – 10 marks out of 100 credit will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline.

To be very clear:

- Unless you have applied for special consideration and had your application approved, for each day your assignment is late, 10 marks will be deducted. For example, if you submit your assignment 7 days late, 70 marks will be deducted, which means you will fail that assignment.
- If your assignment is more than 7 days late (including weekends), you will get 0 for your assignment.

These are serious penalties that will substantially alter your final grade and even determine whether you pass or fail this unit. Please make every effort to submit your assignment by the due date.

If you find you cannot submit your assignment on time, please apply for Special Consideration through AskMQ. Make sure you read Macquarie University's policy regarding Special Consideration requests before you apply:

<https://students.mq.edu.au/study/assessment-exams/special-consideration>

Attendance and Participation:

Students are expected to view all lectures for MMCC2126. Lectures are not optional: they are a central component of meeting the learning outcomes in this unit, and deliver important content that is directly assessed. Students who elect to not view lectures will miss out on important unit content, and do so at their own risk.

Students are likewise expected to attend all tutorials for MMCC2126. Tutorials are not optional: they deliver important content and are a central component of meeting the learning outcomes in this unit. Tutorials provide an environment where students can discuss ideas and learn from each other, building important networks and group work skills. In tutorials, you will also have the opportunity to ask for assistance from your tutor, and receive informal feedback on work in progress. Students who do not attend tutorials will miss out on important unit content and

learning activities, and do so at their own risk.

Independent Work:

MMCC2126 students will need to do their own reading of relevant texts or online materials outside class time.

Group Exercises:

Students are expected to work in groups for tutorials. Students in this unit must be willing to work within a group and to assume responsibility for the group's progress.

*Assessment standard in this unit align with the University's grade descriptors, available at: <http://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/assessment>

Assessment Tasks

Name	Weighting	Hurdle	Due
Research Report	50%	No	23:59 17/09/2021

Research Report

Assessment Type ¹: Report

Indicative Time on Task ²: 40 hours

Due: **23:59 17/09/2021**

Weighting: **50%**

Students research and discuss examples that illustrate the influence of media technologies on digital performance practices and in the performing arts industries. The student report should research key ideas and issues from course content and readings. Refer to iLearn for further information.

On successful completion you will be able to:

- evaluate the influence of media technologies and digital platforms on the performing arts and entertainment industries.
- interpret developments in contemporary performance practices that deal with questions of human-technology relationships in their wider social, cultural, and artistic contexts.
- analyse the utilisation of media technologies by arts practitioners to achieve engagement and distribution goals in the performing arts industries.

Individual Plan

Assessment Type ¹: Plan

Indicative Time on Task ²: 40 hours

Due: **23:59 05/11/2021**

Weighting: **50%**

Students conduct group performance experiments that actively engage with media technologies. Each student discusses their individual idea for the performance experiment in a detailed written plan that corresponds to a realised performance. Refer to iLearn for further information.

On successful completion you will be able to:

- evaluate the influence of media technologies and digital platforms on the performing arts and entertainment industries.
- interpret developments in contemporary performance practices that deal with questions of human-technology relationships in their wider social, cultural, and artistic contexts.
- analyse the utilisation of media technologies by arts practitioners to achieve engagement and distribution goals in the performing arts industries.
- communicate and devise plans for performance experiments that actively engage with media technologies.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

***MMCC2126 lectures will start in Week 1. Tutorial classes will commence from Week 2.**
