Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
As part of Phase 3 of our return to campus plan, most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to timetable viewer. To check detailed information on unit assessments visit your unit’s iLearn space or consult your unit convenor.

Unit description
This unit provides students with a basic understanding of the content of information systems; the types of information systems; the current roles of information systems in organisations; and the opportunities and business impacts of information systems. The unit also provides an overview of the tools, techniques and frameworks used to build information systems; the range of information technologies used to support information systems; and the ethical responsibilities of both the information system professional and the private user of information. Every business has an information system. These systems are a fundamental component of the business and provide the business with the information its people need to operate and manage the business. This unit lays a foundation for students to use information systems in the context of accounting, marketing, and finance, or develop business information systems that organisations want and need.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

- **ULO1**: Demonstrate foundational learning skills including active engagement in your learning process
- **ULO2**: Describe how information systems can be used to improve business performance
- **ULO3**: Use basic information technology applications, including basic computer management, e-mail, web browsers, web-page creators and productivity software
- **ULO4**: Demonstrate an understanding of how such applications work, to a level where you can learn new material without requiring formal training
- **ULO5**: Use a 4th-generation programming environment to script IT applications.

General Assessment Information
Details for each assessment will be available via iLearn.

You are encouraged to:

- set your personal deadline earlier than the actual one
- keep backups of all your important files
- seek for assistance in the early stages rather than closer to the due date

Quizzes
**Submission Method**: via timed iLearn quiz and TurnItIn outside of class time.
Late Submission(s) of Assessment: No late submission will be accepted.

Assignments and Video Presentation

Submission Method: via iLearn submission links

Late Submission(s) of Assessment: There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late (for example, 25 hours late in submission incurs a 20% penalty). Late submissions will not be accepted after solutions have been discussed and/or made available. This penalty does not apply for cases in which an application for Special Consideration is made and approved.

If you cannot submit on time because of illness or other circumstances, please apply for special consideration as soon as possible through https://ask.mq.edu.au/. Note: applications for Special Consideration Policy must be made within 5 (five) business days of the due date and time.

Assessment Tasks

Quiz

Assessment Type \(^1\): Quiz/Test
Indicative Time on Task \(^2\): 30 hours
Due: Week 4, 7, 10, 13
Weighting: 60%

There will be four short quizzes in the semester. These quizzes will cover important parts of the unit material and, as well as assessing your current level of mastery of it, give you and your tutor an opportunity to address any problem areas. The quizzes will also include a short test based on practical components.

On successful completion you will be able to:
- Describe how information systems can be used to improve business performance
- Use basic information technology applications, including basic computer management,
e-mail, web browsers, web-page creators and productivity software

• Demonstrate an understanding of how such applications work, to a level where you can learn new material without requiring formal training

Assignment One

Assessment Type 1: Design Implementation
Indicative Time on Task 2: 12 hours
Due: Week 5
Weighting: 10%

Advanced Excel (spreadsheets). Apply spreadsheet functions to present data according to the business requirements by using various formulas, charts, filtering, sorting, data grouping, pivot table/chart, etc.

On successful completion you will be able to:
  • Demonstrate foundational learning skills including active engagement in your learning process
  • Describe how information systems can be used to improve business performance
  • Use basic information technology applications, including basic computer management, e-mail, web browsers, web-page creators and productivity software
  • Demonstrate an understanding of how such applications work, to a level where you can learn new material without requiring formal training

Assignment Two

Assessment Type 1: Design Implementation
Indicative Time on Task 2: 18 hours
Due: Week 11
Weighting: 15%

Advanced Access (Databases) - Create and modify relational database according to the business requirements. Manipulate data for analysis and reporting purposes.

On successful completion you will be able to:
  • Demonstrate foundational learning skills including active engagement in your learning process
Describe how information systems can be used to improve business performance
- Use basic information technology applications, including basic computer management, e-mail, web browsers, web-page creators and productivity software
- Demonstrate an understanding of how such applications work, to a level where you can learn new material without requiring formal training
- Use a 4th-generation programming environment to script IT applications.

**Video Presentation**

Assessment Type: Presentation
Indicative Time on Task: 16 hours
Due: Week 9
Weighting: 15%

Applying concepts into business practice. Students will need to use visual aid and record a short video presentation proposing IS for a particular business.

On successful completion you will be able to:
- Demonstrate foundational learning skills including active engagement in your learning process
- Describe how information systems can be used to improve business performance
- Use basic information technology applications, including basic computer management, e-mail, web browsers, web-page creators and productivity software

1 If you need help with your assignment, please contact:
- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

**Delivery and Resources**

**Teaching and Learning Strategy**

COMP1750 is taught via lectures and practical classes. The feedback that you receive plays a crucial role in your learning.

Lectures are used to introduce new material, give examples of the advances in business
information systems and technologies and put them in a wider context.

Practical/SGTA classes are small group classes which give you the opportunity to interact with your peers and with a tutor who has a sound knowledge of the subject. This also gives you a chance to practice your technical skills.

You have many opportunities to seek and to receive feedback. During lectures, you are encouraged to ask the lecturer questions to clarify anything you might not be sure of. Assignments have been specially designed to deliver continuous feedback on your work.

Each week you should:

- Attend lectures, take notes, ask questions
- Attend your practical class and seek feedback from your tutor on your work
- Read assigned reading material, add to your notes and prepare questions for your lecturer or tutor
- Start working on any assignments immediately after they have been released.

Lecture notes are made available each week but these notes are intended as an outline of the lecture only and are not a substitute for your own notes or reading additional material.

Classes

Each week you should attend two hours of lecture and an hour of practical class.

Note that practicals run for 12 weeks and commence in week 1.

Please note that you are required to submit a certain number of assignments and participate in a certain number of workshop class. Failure to do so may result in you failing the unit.

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Grade Appeal Policy
- Complaint Management Procedure for Students and Members of the Public
- Special Consideration Policy (Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)

Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).
Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit [ask.mq.edu.au](https://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Student Support

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Getting help with your assignment
- Workshops
- StudyWise
- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Enquiry Service

For all student enquiries, visit Student Connect at [ask.mq.edu.au](https://ask.mq.edu.au)

If you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Equity Support

Students with a disability are encouraged to contact the [Disability Service](https://www.mq.edu.au/about_us/offices_and_units/disability_service/) who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).
Unit guide COMP1750 Introduction to Business Information Systems

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Changes from Previous Offering

Change of assessments and weightings.

Removal of hurdle assessments and the final exam due to special circumstances.

Change of textbook to a newer edition.
