Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
As part of Phase 3 of our return to campus plan, most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to timetable viewer. To check detailed information on unit assessments visit your unit’s iLearn space or consult your unit convenor.

Unit description
This unit surveys the field of operations research, which is the practical application of a scientific method to the operational, organisational and economic problems of business and industry. An elementary knowledge of algebra is assumed. Students are expected to use Microsoft Excel to find solutions to formulated problems. Topics are model construction; linear programming; transportation and assignment problems; network analysis (critical path and PERT); inventory analysis and waiting lines.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates
Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Apply mathematical modelling principles to real and simulated business scenarios.

**ULO2:** Use Excel Solver to find solutions to linear programming, transportation and assignment problems and interpret the output.

**ULO3:** Use the Critical Path Method (CPM) and Project Evaluation and Review Technique (PERT) for optimal project scheduling.

**ULO4:** Formulate an inventory policy which will control the stock of goods at a minimum total cost in inventory models.

**ULO5:** Evaluate probabilities of various queue lengths, average queue length and the average time spent waiting in a queue.

General Assessment Information

**ASSIGNMENT SUBMISSION:** Assignment submission will be online through the iLearn page.

Submit assignments online via the appropriate assignment link on the iLearn page. A personalised cover sheet is not required with online submissions. Read the submission statement carefully before accepting it as there are substantial penalties for making a false declaration.

- Assignment submission is via iLearn. You should upload this as a single scanned PDF file.
- Please note the quick guide on how to upload your assignments provided on the iLearn page.
- Please make sure that each page in your uploaded assignment corresponds to only one A4 page (do not upload an A3 page worth of content as an A4 page in landscape). If you are using an app like Clear Scanner, please make sure that the photos you are using are clear and shadow-free.
- It is your responsibility to make sure your assignment submission is legible.
- If there are technical obstructions to your submitting online, please email us to let us know.

You may submit as often as required prior to the due date/time. Please note that each submission will completely replace any previous submissions. It is in your interests to make frequent submissions of your partially completed work as insurance against technical or other problems near the submission deadline.

**LATE SUBMISSION OF WORK:** All assessment tasks must be submitted by the official due
date and time. In the case of a late submission for a non-timed assessment (e.g. an assignment), if special consideration has NOT been granted, 20% of the earned mark will be deducted for each 24-hour period (or part thereof) that the submission is late for the first 2 days (including weekends and/or public holidays). For example, if an assignment is submitted 25 hours late, its mark will attract a penalty equal to 40% of the earned mark. After 2 days (including weekends and public holidays) a mark of 0% will be awarded. Timed assessment tasks (e.g. tests, examinations) do not fall under these rules.

**FINAL EXAM POLICY:** It is Macquarie University policy not to set early examinations for individuals or groups of students. All students are expected to ensure that they are available until the end of the teaching semester, that is, the final day of the official examination period. The only excuse for not sitting an examination at the designated time is because of documented illness or unavoidable disruption. In these special circumstances, you may apply for special consideration via ask.mq.edu.au.

If you receive special consideration for the final exam, a supplementary exam will be scheduled in the interval between the regular exam period and the start of the next session. By making a special consideration application for the final exam you are declaring yourself available for a resit during this supplementary examination period and will not be eligible for a second special consideration approval based on pre-existing commitments. Please ensure you are familiar with the policy prior to submitting an application.

**Assessment Tasks**

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>iLearn Quizzes</td>
<td>20%</td>
<td>No</td>
<td>Week 3, 6, 9,11</td>
</tr>
<tr>

</tr>
</tbody>
</table>

**iLearn Quizzes**

Assessment Type: Quiz/Test
Indicative Time on Task: 15 hours
Due: **Week 3, 6, 9,11**
Weighting: **20%**

iLearn quizzes may be attempted multiple times. Reinforce and apply skills learned in lectures

On successful completion you will be able to:
• Use Excel Solver to find solutions to linear programming, transportation and assignment
  problems and interpret the output.
• Use the Critical Path Method (CPM) and Project Evaluation and Review Technique
  (PERT) for optimal project scheduling.
• Formulate an inventory policy which will control the stock of goods at a minimum total
  cost in inventory models.

Assignment 1
Assessment Type ¹: Quantitative analysis task
Indicative Time on Task ²: 8 hours
Due: Week 4
Weighting: 10%

Reinforce and apply skills learned in lectures and SGTAs. Apply linear programming principles to
business scenarios.

On successful completion you will be able to:
  • Apply mathematical modelling principles to real and simulated business scenarios.

Assignment 2
Assessment Type ¹: Quantitative analysis task
Indicative Time on Task ²: 8 hours
Due: Week 8
Weighting: 10%

Reinforce and apply skills learned in lectures and SGTAs. Apply mathematical models to
simulated business scenarios.

On successful completion you will be able to:
  • Apply mathematical modelling principles to real and simulated business scenarios.
  • Use Excel Solver to find solutions to linear programming, transportation and assignment
    problems and interpret the output.
  • Formulate an inventory policy which will control the stock of goods at a minimum total
    cost in inventory models.
Final Examination

Assessment Type 1: Examination
Indicative Time on Task 2: 2 hours
Due: Formal Examination period
Weighting: 60%

Formal invigilated examination testing the learning outcomes of the unit.

On successful completion you will be able to:

- Apply mathematical modelling principles to real and simulated business scenarios.
- Use Excel Solver to find solutions to linear programming, transportation and assignment problems and interpret the output.
- Use the Critical Path Method (CPM) and Project Evaluation and Review Technique (PERT) for optimal project scheduling.
- Formulate an inventory policy which will control the stock of goods at a minimum total cost in inventory models.
- Evaluate probabilities of various queue lengths, average queue length and the average time spent waiting in a queue.

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

The Lectures begin in Week 1 online.

The SGTAs (1-hour per week) begin in Week 2.

Required and Recommended Texts and/or Materials

- The lecture slides and SGTA material will be made available via iLearn.
- Reference books:

  1. *Quantitative Decision Making with Spreadsheet Applications* (7th Ed) by Lawrence L.
Lapin, William D. Whisler, 2002

Technology Used and Required

*Microsoft Excel*

*iLearn*

Students can access the *iLearn* page by logging on at [https://ilearn.mq.edu.au](https://ilearn.mq.edu.au). Students must log in regularly to read the Announcements and access the teaching material.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
- Academic Progression Policy
- Assessment Policy
- Fitness to Practice Procedure
- Grade Appeal Policy
- Complaint Management Procedure for Students and Members of the Public
- Special Consideration Policy *(Note: The Special Consideration Policy is effective from 4 December 2017 and replaces the Disruption to Studies Policy.)*

Students seeking more policy resources can visit the [Student Policy Gateway](https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

Results

Results published on platform other than [eStudent](https://eStudent.macquarie.edu.au) (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](https://eStudent.macquarie.edu.au). For more information visit [ask.mq.edu.au](https://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Student Support

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

Learning Skills

[Learning Skills](http://mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Getting help with your assignment
- Workshops
- StudyWise
- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
- Ask a Librarian

Student Enquiry Service

For all student enquiries, visit Student Connect at [ask.mq.edu.au](https://ask.mq.edu.au)

If you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Equity Support

Students with a disability are encouraged to contact the [Disability Service](https://students.mq.edu.au/support/) who can provide appropriate help with any issues that arise during their studies.

IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](https://students.mq.edu.au/support/).
The policy applies to all who connect to the MQ network including students.
