#### **Disclaimer**

Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

#### **Notice**

As part of [Phase 3 of our return to campus plan](#), most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to [timetable viewer](#). To check detailed information on unit assessments visit your unit's iLearn space or consult your unit convenor.

## General Information

PSYX3338 - Organisational Psychology

Unit description

This unit introduces students to psychological perspectives of the world of work, including both individual and organisational aspects. We cover topics such as personnel selection, job attitudes, stress, personality, and human factors at work. Students discover some of the ways organisational psychologists have used the science of psychology to learn more about the human condition and to assist in the effective management of businesses. This unit provides a valuable background for the application of scientific principles and findings to workplace policies and practices that involve people. Through tutorial exercises and discussions, the unit ensures that students gain an appreciation of job analysis, recruitment and selection techniques, occupational stress management, and other psychological issues in the workplace.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Conduct simple job analyses - to systematically collect and analyse information about jobs, enabling an accurate description of the job and the competencies required to be successful at the job.

**ULO2:** Apply appropriate assessment principles to employee selection -- to write effective behavioural interview questions and choose assessment tests based on a knowledge of their strengths and limitations.

**ULO3:** Identify stressors - to recognise major sources of employee stress in a workplace situation.

**ULO4:** Engage others in a survey process - to follow an ethical procedure of providing informed consent to recruit employed people to complete a carefully-designed survey.

**ULO5:** Research discoveries in organisational psychology - to locate, understand and apply the most theories and findings about psychological and behavioural issues in the workplace.

**ULO6:** Communicate about organisational psychology - to write reports for different audiences on conceptual and practical aspects of psychological factors that relate to the modern workplace.

## General Assessment Information

### Two Evaluation Systems

*Participation tasks* assess your level of engagement with learning opportunities. The weekly online quiz tracks active participation rather than performance level, although scores provide you with feedback. You will also have a chance to participate in collecting data for the written report assignments.

*Graded assessment tasks* assess achievement of learning outcomes. Two reports indicate your understanding and communication of organisational psychology; first as a process for scientific enquiry, and second as a resource for business. The final exam assesses knowledge and understanding of organisational psychology concepts and their application.

### Assessment activity I: Weekly online quiz

*Description:* Weekly quizzes encourage you to keep a regular routine of watching the lecture videos each week, and to provide you with feedback about how much of the video content you understand and remember.

*Requirements:* You can access quizzes via the unit iLearn website. After the first few weeks of semester, each quiz will be available for one week only, typically concluding at midday on Monday of the week after the quiz topic. The quiz must be completed by independently, without collaborating with others. Note that it is not possible to re-open the quiz for individual students who missed the quiz deadline without a formal application for Special Consideration.

### Assessment activity II: Survey recruitment exercise

*Description:* This exercise provides experience in using surveys to advance knowledge in a way

that also has practical workplace applications. Your task is to invite four working adults to participate in an online survey on a topic relevant to organisational psychology, and to collect their contact emails. More information about the task and methods, along with the due dates, will be provided by Week 3. You are responsible for checking iLearn for this information.

*Requirements:* It is essential that you follow the specified procedures for participant recruitment. You receive the participation marks if enough of the people you recruited commence the survey. If they subsequently do not complete the survey you will not be penalised. If you notify us in advance that you are unable to recruit participants, or if your recruitment attempts prove unsuccessful, other research participation opportunities will be offered.

### **Assessment activity III: Introduction to a Scientific Report**

*Description:* Students follow the style and structure of the introduction section to a scientific report to provide a background suitable for the survey study we conduct as part of this unit. From among the range of variables measured in the study, students get to choose a subset on which to focus their report. This exercise helps develop greater understanding of organisational psychology theory and research, as well as skills in communication, critical analysis, and capability for evidence-based argument.

*Requirements:* Specific requirements will be described in an assessment guide (available on iLearn by Week 3).

### **Assessment activity IV: Research Summary**

*Description:* Students will describe some of the findings from our survey study in an accessible manner, focusing on the relevance of these findings to business. This exercise is designed to develop greater understanding of applications of organisational psychology, as well as to develop skills in communication of research to an audience of non-scientists.

*Requirements:* Specific requirements will be described in an assessment guide (available on iLearn before the end of the mid-semester break).

### **Penalties**

The two written reports (*Introduction to a Scientific Report* and *Research Summary*) are assessed against specific criteria that will be supplied via iLearn. Penalties apply to assignments that are not submitted in accordance with specified requirements. Some penalties are applied in units of 5% of the assignment mark, which for both reports (30 marks) is 1.5 marks. For example, assignments submitted late are penalised 1.5 marks per day late, and long assignments are penalised 1.5 marks per 100 words over the set limit. At the convenor's discretion, penalties may apply to reports where spelling, grammar, or use of reference material is noticeably poorer than the standard expected at this level (3rd year university).

As described in the [Academic Integrity Policy](#), *plagiarism* is a particularly serious case of unprofessional and unethical academic misconduct. All written assignment submissions are

evaluated using the Turnitin database system to determine if material has been copied from other students, published academic papers, or other online sources. If evidence of plagiarism is found it will be reported to the appropriate university authorities. Do not take the risk.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#"><u>Weekly online quiz</u></a>	6%	No	Weekly (midday each Monday)
<a href="#"><u>Survey recruitment exercise</u></a>	4%	No	Week 4 (date TBA)
<a href="#"><u>Scientific report introduction</u></a>	30%	No	6pm April 01
<a href="#"><u>Research summary</u></a>	30%	No	6pm May 20
<a href="#"><u>Final examination</u></a>	30%	No	Exam period

### Weekly online quiz

Assessment Type <sup>1</sup>: Quiz/Test

Indicative Time on Task <sup>2</sup>: 8 hours

Due: **Weekly (midday each Monday)**

Weighting: **6%**

Weekly multiple-choice online quiz, testing unit content.

On successful completion you will be able to:

- Conduct simple job analyses - to systematically collect and analyse information about jobs, enabling an accurate description of the job and the competencies required to be successful at the job.
- Apply appropriate assessment principles to employee selection -- to write effective behavioural interview questions and choose assessment tests based on a knowledge of their strengths and limitations.
- Identify stressors - to recognise major sources of employee stress in a workplace situation.

### Survey recruitment exercise

Assessment Type <sup>1</sup>: Field work task

Indicative Time on Task <sup>2</sup>: 2 hours

Due: **Week 4 (date TBA)**

Weighting: **4%**

This exercise is designed to give students experience in using surveys to advance psychology knowledge in a way that also has practical workplace applications. The task is to invite four working adults to participate in an online survey on a topic relevant to organisational psychology, and to enter the details correctly in the form

On successful completion you will be able to:

- Engage others in a survey process - to follow an ethical procedure of providing informed consent to recruit employed people to complete a carefully-designed survey.

## Scientific report introduction

Assessment Type <sup>1</sup>: Report

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **6pm April 01**

Weighting: **30%**

Students write up to 800 words about the survey study being conducted as part of this unit, following the style and structure of the introduction section to a scientific report.

On successful completion you will be able to:

- Identify stressors - to recognise major sources of employee stress in a workplace situation.
- Research discoveries in organisational psychology - to locate, understand and apply the most theories and findings about psychological and behavioural issues in the workplace.

## Research summary

Assessment Type <sup>1</sup>: Report

Indicative Time on Task <sup>2</sup>: 30 hours

Due: **6pm May 20**

Weighting: **30%**

Students will write an 800 word report about findings from the survey study being conducted as part of this unit, focusing on their relevance to business. The writing style must be that of a business news article.

On successful completion you will be able to:

- Identify stressors - to recognise major sources of employee stress in a workplace situation.
- Communicate about organisational psychology - to write reports for different audiences on conceptual and practical aspects of psychological factors that relate to the modern workplace.

## Final examination

Assessment Type <sup>1</sup>: Examination

Indicative Time on Task <sup>2</sup>: 18 hours

Due: **Exam period**

Weighting: **30%**

Final examination held within the University's formal exam period, in accordance with relevant requirements.

On successful completion you will be able to:

- Conduct simple job analyses - to systematically collect and analyse information about jobs, enabling an accurate description of the job and the competencies required to be successful at the job.
- Apply appropriate assessment principles to employee selection -- to write effective behavioural interview questions and choose assessment tests based on a knowledge of their strengths and limitations.
- Identify stressors - to recognise major sources of employee stress in a workplace situation.

---

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Online lecture videos

The lectures explain important points and provide concrete examples linking theory to practice. To get the most out of these resources, you should read relevant chapters of the textbook before viewing lectures for that week, and then explore the online resources provided such as organisation websites, podcast episodes, and interviews with subject matter experts. While questions for the final examination will be drawn primarily from the lectures (exceptions will be flagged in advance), these additional resources will complement learning acquired from lecture videos. If you utilise these resources, you are more likely to understand, remember and be able to apply the lecture content.

### Tutorials

Tutorials are your opportunities to discuss and apply organisational psychology. Tutors are all current or former students of the Macquarie University Master of Organisational Psychology program, and they have valuable knowledge and practical experience of this field that they are keen to share. Tutorial content is examinable in the final examination.

### Reading

Students are encouraged to obtain one of the following two books in hardcopy or e-book format (the latter may only be available as an e-book):

Arnold, J., & Silvester, J. (2016). *Work Psychology: Understanding Human Behaviour in the Workplace* (6th ed). Pearson Education.

Landy, F. J., & Conte, J. M. (2018). *Work in the 21st Century: An Introduction to Industrial and Organizational Psychology* (6th ed.). McGraw Hill.

In addition to reading appropriate sections from the textbook, students are encouraged to read articles published in journals in the field of organisational psychology to provide the information required for the *Introduction to a Scientific Report* assignment, as well as furthering their understanding of this field.

You will also notice, on the iLearn site, links to other online resources that will develop your understanding of this field.

### Feedback

Feedback is an important part of the learning process, but it can only improve your performance if you actively seek and apply it. Make the most of the following opportunities to obtain feedback about your understanding of the unit content.

Activity	Maximising Your Feedback Opportunity
Tutorials	Try to answer questions and get involved in discussions. See how well you can apply your new knowledge in class activities. Your tutor is also a good person to ask about anything you've found confusing in the lectures.
Weekly quizzes	See how much you learned from the lecture videos. If your first score isn't great, review the videos, the textbook and other resources to see what you misunderstood. Before the final exam, look over your quiz performance to identify the topics in which you need to devote the most study time.
Introduction to a Scientific Report	Use the evaluation criteria for this assignment to guide your efforts and to make regular assessments of the strengths and limitations of your work. When your assignment is marked, look closely at the specific feedback you received and consider how you could apply it in the future.
Research summary	Use the evaluation criteria for this assignment to guide your efforts and to make regular assessments of the strengths and limitations of your work. When your assignment is marked, look closely at the specific feedback you received and consider how you could apply it in the future.

## Unit Schedule

### Lecture and tutorial topic schedule

Week	Primary online lecture topic(s)	Tutorial topic
1	Introduction to organisational psychology	<i>(no tutorial)</i>
2	Job analysis and its applications	Analysing jobs
3	Personnel selection	Job interviews
4	Occupational stress	Stress & appraisal
5	Training and career development	Report writing
6	Motivation, attitudes, and justice	Motivation
	<i>Mid-semester break</i>	<i>(no tutorial)</i>
7	Personality at work	Personality
8	Organisational behaviour	Incivility
9	Climate and culture in organisations	Communication
10	Human factors at work	Human error
11	Teams and their leaders	<i>(no tutorial)</i>
12	Measuring and managing performance	Judging performance
13	(reading week)	Careers & revision

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Grade Appeal Policy](#)
- [Complaint Management Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#)

Students seeking more policy resources can visit [Student Policies](https://students.mq.edu.au/support/study/policies) (<https://students.mq.edu.au/support/study/policies>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central](https://policies.mq.edu.au) (<https://policies.mq.edu.au>) and use the [search tool](#).

## Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

## Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](http://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

## Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

## Learning Skills

Learning Skills ([mq.edu.au/learningskills](http://mq.edu.au/learningskills)) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- [Getting help with your assignment](#)
- [Workshops](#)
- [StudyWise](#)
- [Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)

- [Ask a Librarian](#)

## Student Services and Support

Students with a disability are encouraged to contact the [Disability Service](#) who can provide appropriate help with any issues that arise during their studies.

## Student Enquiries

For all student enquiries, visit Student Connect at [ask.mq.edu.au](http://ask.mq.edu.au)

If you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

## IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about\\_us/offices\\_and\\_units/information\\_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.
