Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
As part of Phase 3 of our return to campus plan, most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to timetable viewer. To check detailed information on unit assessments visit your unit’s iLearn space or consult your unit convenor.

Co-badged status

Unit description
This unit further develops an understanding of internal and operational controls as well as knowledge of the organisation as it relates to information systems (IS) audit and assurance. Students will examine the risks associated with information systems using frameworks that provide professional standards, guidelines, tools and techniques for IS audit and control. The risk-based approach to IS audit is developed so that students have an understanding of inherent risks, control risks and detection risks. Students will be exposed to computer auditing tools and techniques that both directly and indirectly examine the internal logic of an organisation's applications. In this unit students develop graduate capabilities in a range of areas, including: critical analysis skills in information management and analysis; problemsolving skills in sourcing and identifying relevant information and interpreting output in a multidisciplinary environment; and communication and negotiation skills.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://students.mq.edu.au/important-dates
**Learning Outcomes**

On successful completion of this unit, you will be able to:

- **ULO2**: Assess Information Systems risks and controls and their implications for organisations.
- **ULO1**: Evaluate and demonstrate the importance of Information Systems Audit for Information Systems Governance for organisations.
- **ULO3**: Explain how Information Systems audit objectives provide effective Information Systems Governance.
- **ULO4**: Evaluate and explain Information Systems audit tools and techniques.
- **ULO5**: Construct a critical synthesised evaluation of and response to Information Systems audit risk assessments.

**Assessment Tasks**

<table>
<thead>
<tr>
<th>Name</th>
<th>Weighting</th>
<th>Hurdle</th>
<th>Due</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessed Coursework</td>
<td>30%</td>
<td>No</td>
<td>Weeks 4 / 6 / 8 / 10 / 12</td>
</tr>
<tr>
<td>Case Study</td>
<td>30%</td>
<td>No</td>
<td>Week 6</td>
</tr>
<tr>
<td>Final Exam</td>
<td>40%</td>
<td>No</td>
<td>TBA</td>
</tr>
</tbody>
</table>

**Assessed Coursework**

Assessment Type 1: Participatory task
Indicative Time on Task 2: 25 hours
Due: **Weeks 4 / 6 / 8 / 10 / 12**
Weighting: **30%**

Each activity will be undertaken in the timeframe allocated during the tutorials and must be submitted at the end of tutorial by each student. Each activity is worth 10%. There will be 3 in-class tasks for this assessment during 3 random weeks of the session (between weeks 3 to 12). The task will take the form of a group discussion (5-6 students per group) followed by each student completing the assessment task individually.

On successful completion you will be able to:

- Assess Information Systems risks and controls and their implications for organisations.
- Evaluate and demonstrate the importance of Information Systems Audit for Information Systems Governance.
Systems Governance for organisations

- Explain how Information Systems audit objectives provide effective Information Systems Governance
- Evaluate and explain Information Systems audit tools and techniques.

Case Study
Assessment Type 1: Case study/analysis
Indicative Time on Task 2: 25 hours
Due: Week 6
Weighting: 30%

Students are required to prepare an Information Systems audit report. Full details of the assignment (assignment objectives, question material, requirements, etc) will be made available through the unit’s iLearn.

On successful completion you will be able to:
- Assess Information Systems risks and controls and their implications for organisations.
- Evaluate and demonstrate the importance of Information Systems Audit for Information Systems Governance for organisations
- Explain how Information Systems audit objectives provide effective Information Systems Governance
- Evaluate and explain Information Systems audit tools and techniques.
- Construct a critical synthesised evaluation of and response to Information Systems audit risk assessments.

Final Exam
Assessment Type 1: Examination
Indicative Time on Task 2: 40 hours
Due: TBA
Weighting: 40%

A 2.5 hour (plus 10 minutes reading time) examination will be held during the University Examination Period. The final exam is designed to let students demonstrate the knowledge and skills they have attained during the session.
On successful completion you will be able to:

• Assess Information Systems risks and controls and their implications for organisations.
• Evaluate and demonstrate the importance of Information Systems Audit for Information Systems Governance for organisations.
• Explain how Information Systems audit objectives provide effective Information Systems Governance.
• Evaluate and explain Information Systems audit tools and techniques.
• Construct a critical synthesised evaluation of and response to Information Systems audit risk assessments.

1 If you need help with your assignment, please contact:

• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation.

Delivery and Resources

Teaching and Learning Strategy

ACCG3058 is taught via lectures (Live via Zoom) and tutorials (Live on campus OR Live via Zoom - check timetables.mq.edu.au for which classes are on campus and which are online. NB You cannot mix modes). The feedback that you receive plays also a crucial role in your learning.

Lectures are used to introduce new material, give examples of IS Audit and Assurance and put them in a wider context.

Tutorials are small group classes which give you the opportunity to interact with your peers and with a tutor who has a sound knowledge of the subject. This also gives you a chance to practice your soft skills. NB. For this semester for ACCG3058, tutorials start in week 2 and the Lectures start in week 1.

You have many opportunities to seek for and to receive feedback. During lectures, you are encouraged to ask the lecturer questions to clarify anything you might not be sure of.

Each week you should:

• Attend live lectures, take notes, ask questions
• Attend your tutorials and seek feedback from your tutor on your work
• Read assigned reading material, add to your notes and prepare questions for your lecturer or tutor
• Start working on any assessments immediately after they have been released.
Lecture notes are made available each week but these notes are intended as an outline of the lecture only and are not a substitute for your own notes or reading additional material.

**Classes**

Each week you should attend 1.5 hours of live lectures (via Zoom), and a 1.5 hour tutorial class (on campus OR online via Zoom)

Please note that you are **required** to submit a certain number of assessments. Failure to do so may result in you failing the unit.

**Textbook**

It recommended to access to the following textbook(s):

**Information Assurance Handbook 1e, Authors Corey Schou and Steven Hernandez, ISBN:** 9781307383300  

Some copies of the text may also be available through the reserved section in the library. The content of this text forms the foundation of the unit, but material to be considered (and examined) will go beyond text content.

**Technology used**

**iLearn:** This unit will use iLearn as an online technology for students to access course material, announcements as well as any other documents related to this unit. Students are required to regularly check the iLearn for accessing up-to-dated information about the unit.

**Echo** is a multi-media learning tool that provides an audio of the lectures which students can download and listen to at their convenience. Echo will be made available at the end of each week via the unit’s website (iLearn).

**Expectations and Workload**

Students are expected to spend 150 hours working on this unit. As a guide a student should spend these approximate amounts of time on each of the following activities:

<table>
<thead>
<tr>
<th>Tasks</th>
<th>Expected workload (hours)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assessed coursework</td>
<td>35</td>
</tr>
<tr>
<td>IS Audit Report</td>
<td>50</td>
</tr>
<tr>
<td>Business Simulation</td>
<td>65</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>150</strong></td>
</tr>
</tbody>
</table>

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- Academic Appeals Policy
- Academic Integrity Policy
Students seeking more policy resources can visit the Student Policy Gateway (https://students.mq.edu.au/support/study/student-policy-gateway). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

If you would like to see all the policies relevant to Learning and Teaching visit Policy Central (https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policy-central).

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**Learning Skills**

Learning Skills (mq.edu.au/learningskills) provides academic writing resources and study strategies to help you improve your marks and take control of your study.

- Getting help with your assignment
- Workshops
- StudyWise
- Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant information resources.

- Subject and Research Guides
Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au
If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.
When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

Research & Practice, Global & Sustainability
This unit addresses global and sustainability issues as direct areas of study and as necessary implications arising from the materials, assessment and academic discussion and debate in classes/seminars. We promote sustainability by developing ability in students to research and locate information within accounting discipline. We aim to provide students with an opportunity to obtain skills which will benefit them throughout their career. The unit materials have a reference list at the end of each chapter/module/text containing all references cited by the author. These provide some guidance to references that could be used to research particular issues.
