Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

International business includes all business activities that involve organisations from two or more countries. Although international business has many similarities with domestic business, there are significant differences which this unit examines. At an international level, managers must accommodate a highly complex environment. Key variables in this environment include: different currencies; different government policies concerning trade; subsidies and controls on foreign investment; as well as the variables that exist in any domestic environment such as competition, costs and customer characteristics. Topics examined in the unit include: forms of international business; the political and cultural context of international business; theories of international trade and investment; regional economic integration; and an introduction to multilateral institutions such as the IMF, the World Bank group and the World Trade Organisation.
