Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

This unit examines the relationships among the three pillars of sustainability: Environmental (Planet), Social (People), and Economic (Profit) in international business. The environmental pillar acknowledges the impact businesses and environmental stakeholders have on major environmental issues, such as climate change, food resources, water pollution, air pollution, energy and waste. The social pillar acknowledges the need for equity within and between generations, and within and between individuals, social groups and organisations. The economic pillar acknowledges the interactions of humans with the natural environment in using resources to create goods and services which add value to our lives. By the end of the unit, students will have a strong appreciation of the impacts of how individuals and organisations can potentially contribute to society and the environment. It encourages a fair-trading system that equitably distributes benefits and costs and further encourages students' innovation and creativity in business planning that leads to a sustainable future.
