Unit description

This unit is offered on a pass/fail basis. This unit aims to further develop knowledge and practical skills in audiological assessment and management of adults and children over the age of five years. Students will also develop skills in assessment of younger children and those which are more difficult to assess. Skills will be further developed in the area of aural rehabilitation including the fitting of hearing devices to adults and outcome assessments. Emphasis is placed upon students using problem solving and critical analysis skills to apply the information they have gained throughout the course in a clinical setting.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes
