Unit description
The marketing media landscape has changed drastically over the past decade. The rise of new media such as digital and social media has changed the ways in which companies communicate and interact with consumers. More importantly, it opens new channels that allow companies to gain immediate and strategic insights into consumer trends and their target market. As such, a company’s ability to transform data generated from various traditional and new media sources into business insights creates a competitive advantage to ensure their survival and prosperity.

This unit enables students to develop a knowledge of the trends changing the current marketing media landscape. Students will learn how to use different analytic software packages, such as SAS and Excel, to analyse both structured and unstructured data that are produced by various marketing media sources. Students will also learn how to transform results into actionable insights and will develop an ability to communicate and explain their insights in an engaging and effective way.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:
ULO1: Investigate the challenges, critical factors and organizational impacts faced by companies in deriving insights from different marketing media sources.

ULO2: Critically evaluate the diversity in the data that are generated by different marketing media sources and formulate appropriate approaches to analysis.

ULO3: Analyse both structured and unstructured data to derive business insights that can inform marketing strategies.

General Assessment Information

Late assessment submissions must also be submitted through the appropriate submission link in iLearn. No extensions will be granted unless an application for Special Consideration is made and approved. There will be a deduction of 10% of the total available marks made from the total awarded mark for each 24 hour period or part thereof that the submission is late. Late submissions will not be accepted after solutions have been discussed and/or made available.

Note: Further information on submitting an Application for Special Consideration can be found at https://students.mq.edu.au/study/my-study-program/special-consideration
