Unit description

This unit equips managers with the skills and tools to construct, analyse, interpret and act upon the accounting and financial information produced within a business. This discussion and analysis begins with the three financial statements targeted at external users: the Profit and Loss Statement, the Balance Sheet, and the Statement of Cash Flows. The unit then proceeds into the analysis, interpretation, and the use of management accounting information for the purpose of managerial decision making. Real life complexities in the decision making process are highlighted.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>
