Unit description
This unit develops a conceptual framework to apply modern investment theory. Students analyse the investment industry, the risk-return relation, asset allocation between risky and risk-free assets, how optimal portfolios are constructed and why they are constructed the way they are. The unit also provides insights in terms of models that explain the cross-section of stock returns, articulating and considering the market efficiency debate, differences between behavioural finance and rational expectations, bond portfolio management, and portfolio insurance techniques. The unit concludes by examining portfolio performance measurement as the final step in the investment process.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Identify and evaluate conceptual frameworks and theories in managing investments.

ULO2: Develop financial literacy and apply knowledge to evaluate and assess investment portfolio performance.

ULO3: Assess and synthesise the differences between behavioural finance and rational
expectations in a global investment environment.

**General Assessment Information**

**Late submissions of assessments**

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

**Table 1: Penalty calculation based on submission time**

<table>
<thead>
<tr>
<th>Submission time after the due date (including weekends)</th>

<th>Example: for a non-timed assessment task marked out of 30</th>
</tr>

<td>&lt; 24 hours</td>
<td>10%</td>
<td>10% x 30 marks = 3-mark deduction</td>

<td>20% x 30 marks = 6-mark deduction</td>

<td>40% x 30 marks = 12-mark deduction</td>
</tr>
<tr>

**Special Consideration**

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a [Special Consideration application](https://unitguides.mq.edu.au/unit_offerings/143154/unit_guide/print). An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
