### Session 2 Learning and Teaching Update

The decision has been made to conduct study online for the remainder of Session 2 for all units WITHOUT mandatory on-campus learning activities. Exams for Session 2 will also be online where possible to do so.

This is due to the extension of the lockdown orders and to provide certainty around arrangements for the remainder of Session 2. We hope to return to campus beyond Session 2 as soon as it is safe and appropriate to do so.

Some classes/teaching activities cannot be moved online and must be taught on campus. You should already know if you are in one of these classes/teaching activities and your unit convenor will provide you with more information via iLearn. If you want to confirm, see the list of [units with mandatory on-campus classes/teaching activities](#).

Visit the [MQ COVID-19 information page](#) for more detail.

Unit description

By working on a management-based group project, this unit is designed to provide students with the opportunity to extend, but most importantly to apply, the knowledge and skills that they have gained throughout their Bachelor of Commerce (Management major) degree. The aim of the project is to provide a solution to a problem set by an industry partner, such as a not-for-profit organisation, government agency or for-profit organisation, and to present the solution to an organisation representative at the end of the session. The challenge set by the partner could be, but not limited to, leadership challenges, organisational restructures, and business modelling. It is expected that students will liaise with the industry partner throughout the session to ensure they are working effectively towards the end goal. Students will gain an insight into organisations and be able to contextualise the course's learning outcomes in the final management project. Students will be assessed on a reflective journal, and on both the written and oral components of their reports.
