Unit description

This unit focuses on the development of infants and young children aged 0-3 years within the Australian social context. Theories and research, which attempts to describe and explain early childhood development and individual differences are critically examined. Implications for the prenatal, cognitive, social/emotional, language and motor development during the first three years of life are also examined. Teacher Education Students are encouraged to make links between content, research, to observations and experiences with infants and very young children within early childhood settings.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Apply knowledge of theory, current research, and issues in infancy and early development to early childhood settings.

ULO2: Appreciate the unique contribution of cultural, historical, contextual and individual factors in early child development, applying this knowledge to meet the needs of children from diverse backgrounds.

ULO3: Critically evaluate new research findings within the basic scientific framework, and in the context of theoretical approaches to early child development.

General Assessment Information

More detailed information about assessment tasks is provided on your iLearn site including detailed instructions and the rubric / marking criteria.

Assessment Presentation and Submission Guidelines

Please follow these guidelines when you submit each assignment:

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc or .pdf format
- It is the responsibility of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets are NOT required.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their

academic writing if this option is made available in the unit.

- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

Please note:

- Students should regularly save a copy of all assignments before submission,
- Students are responsible for checking that their submission has been successful and has been submitted by the due date and time.

Assignment extensions and late penalties

- In general, there should be no need for extensions except through illness or misadventure that would be categorised as serious and unavoidable disruption according to the University definition of same, see: <https://students.mq.edu.au/study/my-study-program/special-consideration>
- Applications for extensions must be made via AskMQ according to the Special Consideration policy. Extensions can only be granted if they meet the Special Considerations policy and are submitted via <https://ask.mq.edu.au/>. This will ensure consistency in the consideration of such requests is maintained.
- **Late submission Penalty:**

Unless a Special Consideration request has been submitted and approved, **a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a mark of '0' (zero) will be awarded even if the assessment is submitted.** Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical issue.

This late penalty will apply to non-timed sensitive assessment (incl essays, reports, posters, portfolios, journals, recordings, etc.). Late submission of time sensitive tasks (such as tests/exams, performance assessments/presentations, scheduled practical assessments/labs, etc.) will only be addressed by the unit convenor in a Special Consideration application. Special Consideration outcome may result in a new question

or topic.

- Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

University policy on grading

Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. The following descriptive criteria are included for your information.

Descriptive Criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

Students will be awarded grades ranging from HD to F according to guidelines set out in the policy: <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/assessment-in-effect-from-session-2-2016>

The following generic grade descriptors provide university-wide standards for awarding final grades.

Grade	Descriptor
HD (High Distinction)	Provides consistent evidence of deep and critical understanding in relation to the learning outcomes. There is substantial originality and insight in identifying, generating and communicating competing arguments, perspectives or problem solving approaches; critical evaluation of problems, their solutions and their implications; creativity in application as appropriate to the discipline.
D (Distinction)	Provides evidence of integration and evaluation of critical ideas, principles and theories, distinctive insight and ability in applying relevant skills and concepts in relation to learning outcomes. There is demonstration of frequent originality in defining and analysing issues or problems and providing solutions; and the use of means of communication appropriate to the discipline and the audience.
Cr (Credit)	Provides evidence of learning that goes beyond replication of content knowledge or skills relevant to the learning outcomes. There is demonstration of substantial understanding of fundamental concepts in the field of study and the ability to apply these concepts in a variety of contexts; convincing argumentation with appropriate coherent justification; communication of ideas fluently and clearly in terms of the conventions of the discipline.
P (Pass).	Provides sufficient evidence of the achievement of learning outcomes. There is demonstration of understanding and application of fundamental concepts of the field of study; routine argumentation with acceptable justification; communication of information and ideas adequately in terms of the conventions of the discipline. The learning attainment is considered satisfactory or adequate or competent or capable in relation to the specified outcomes

F (Fail)	Does not provide evidence of attainment of learning outcomes. There is missing or partial or superficial or faulty understanding and application of the fundamental concepts in the field of study; missing, undeveloped, inappropriate or confusing argumentation; incomplete, confusing or lacking communication of ideas in ways that give little attention to the conventions of the discipline.
--------------------	--

Note: *If you fail a unit with a professional experience component, the fail grade will be on your transcript irrespective of the timing of the placement.*

Withdrawing from this unit

If you are considering withdrawing from this unit, please seek academic advice via <https://ask.mq.edu.au> before doing so as this unit may be a co-requisite or prerequisite for units in the following sessions and may impact on your progression through the degree.

Results

Results shown in iLearn, or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au.

Assessment Tasks

Name	Weighting	Hurdle	Due
Understanding development	50%	No	23:55 29/09/2022
Final exam	50%	No	During examination period

Understanding development

Assessment Type ¹: Essay

Indicative Time on Task ²: 14 hours

Due: **23:55 29/09/2022**

Weighting: **50%**

1800 word essay focusing on a specific topic and critically evaluating the literature and empirically-derived evidence on this topic

On successful completion you will be able to:

- Apply knowledge of theory, current research, and issues in infancy and early development to early childhood settings.
- Appreciate the unique contribution of cultural, historical, contextual and individual factors

in early child development, applying this knowledge to meet the needs of children from diverse backgrounds.

- Critically evaluate new research findings within the basic scientific framework, and in the context of theoretical approaches to early child development.

Final exam

Assessment Type ¹: Examination

Indicative Time on Task ²: 30 hours

Due: **During examination period**

Weighting: **50%**

3 hour exam with combination of multiple choice, short answer and essay questions

On successful completion you will be able to:

- Apply knowledge of theory, current research, and issues in infancy and early development to early childhood settings.
- Appreciate the unique contribution of cultural, historical, contextual and individual factors in early child development, applying this knowledge to meet the needs of children from diverse backgrounds.
- Critically evaluate new research findings within the basic scientific framework, and in the context of theoretical approaches to early child development.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Required and Recommended Texts and/or Materials

Prescribed Texts:

The following text is **essential** for this unit.

Hoffnung, M., Hoffnung, J., Seifert, K., Hine, A., Pause, C., Ward, L., Signal, T., Swabey, K.,

Yates, K., & Burton Smith, R. (2019). *Lifespan development* (4th Australasian edition). Wiley.

Note: This will also be the text for ECHE2180.

Recommended Resources

In the Macquarie School of Education, students are required to use the American Psychological Association (APA) referencing procedures.

The library provides a range of resources and referencing information:

<https://libguides.mq.edu.au/referencing/APA7thEdition>

This unit has a full web presence through iLearn.

Students will need regular access to a computer and the Internet to complete this unit.

Weekly access to *iLearn* is **compulsory** for all students. Important assessment information will be posted here, as will other relevant unit notices and materials.

Various activities and materials for discussion and critical reflection are included as a core component of this unit. Electronic links and suggested references will be included in the **Resources** section. Please check the *iLearn* unit regularly.

Unit Structure

The unit comprises two one-hour lectures weekly and a two-hour weekly tutorial (or 2 full-day sessions for external/infrequent students). In the tutorial students will discuss issues and questions arising from the lectures and prescribed readings. They are expected to base their arguments/discussions on evidence from published research and other relevant material. Students are required to participate in small group activities and whole class discussion, to read the weekly material in advance, and to complete brief tasks either as individuals or in pairs. The weekly program for the course with the accompanying readings/ preparation is available on the following pages or on the unit iLearn site.

Lectures - Weekly lectures are available on the web through the *ECHO360* lecture component in iLearn from the following website link: <http://ilearn.mq.edu.au>. **You must listen to all lectures weekly BEFORE the associated tutorial.**

PowerPoint slides are available in *iLearn* in advance of the weekly lecture and/or are available in the Active Learning Tool.

All lectures are pre-recorded and will be available each week no later than Monday morning to enable students to listen to them prior to tutorials which are timetabled on Tuesday and Wednesday each week for those enrolled in weekly attendance mode.

Tutorials will be delivered face to face during the timetabled tutorial times. These tutorials are supported by pre-recorded online lectures, readings and reflection tasks. Students will be informed of any changes to the tutorial delivery mode via iLearn if necessary (e.g due to staff illness) - please ensure you check iLearn Announcements each week.

Attendance Requirements

Attendance at all tutorials is expected. There will be a supporting iLearn website for the unit providing additional readings, links and materials.

All tutorials for internal students begin in Week 1 of Session. There is a unit workbook provided which outlines tasks which will be completed during tutorials. In some instances there may be tasks to be completed independently in preparation for the associated tutorial.

Activities completed during tutorials are essential for building the core knowledge and/or skills required to demonstrate the learning outcomes of this unit and to meet the AITSL Graduate Teacher Standards and/or ACECQA requirements.

Internal Students: Tutorials take place from week 1 to 12 (inclusive) of the session. Tutorials are delivered during the weekly timetabled tutorial times on Tuesdays and Wednesdays.

External Students: Two sessions are scheduled on the **19th** and **20th September**. Further details of the schedule for these days will be provided on iLearn.

Attendance at all tutorials is expected and the roll will be taken. Students are required to attend the tutorial in which they are registered. Any changes to tutorial registration must be completed officially through e-student. Please do not contact the unit convenor requesting a change.

Workload

In a 10 credit-point unit you should expect to commit nine (9) hours of your time per week to your studies.

Access and technical assistance

Information for students about access to the online component of this unit is available at ilearn.mq.edu.au/login/MQ/. You will need to enter your student username and password.

Please do **NOT** contact the Unit Convenor regarding *iLearn* technical help.

No extensions will be given for any technical issues. Allow enough time for your submissions.

Assistance is available from IT Helpdesk ph: [1800 67 4357](tel:1800674357), or log a request at help.mq.edu.au. OneHelp is the online IT support service for both students and staff.

This unit requires students to use several ICT and software skills:

- **Internet access:** The *iLearn* site contains materials for this unit; it is also required for online tutorials (using Zoom), discussion forums for tutorial tasks, the online completion of all Assessment Tasks, and for the use of Turnitin submission for ALL tasks.
- **Word processing, visual representations, and document formatting:** You are required to use an appropriate form of software to present your assignments.
- **Uploading** of assessment tasks to **iLearn**.
- **Library databases:** You are required to use various research databases to locate sources for your assignment.

Unit Schedule

Pre-recorded and Available by dates below

Week 1: 25 July

Research methods - Belinda Davis

Introduction to key issues in child development - Helen Little

Week 2: 1 August

Maturation/ethology - Helen Little

Behaviourism/learning theory - Helen Little

Week 3: 8 August

Dynamic systems - Helen Little

Studies of Child Development - Helen Little

Week 4: 15 August

Genetics & Individual differences - Helen Little

Prenatal - Helen Little

Week 5: 22 August

Physical development - Helen Little

Motor development - Helen Little

Week 6: 29 August

Perception - Shirley Wyver (note: this is a single 2-hour lecture)

Week 7: 5 September

Cognition - Shirley Wyver (note: this is a single 2-hour lecture)

Week 8: 26 September

Developmental neuroscience - Shirley Wyver

Attachment - Helen Little

Week 9: 3 October

Temperament - Helen Little

Joint attention & mind-mindedness - Belinda Davis

Week 10: 10 October

Language - Helen Little

Bilingualism - Helen Little

Week 11: 17 October

Emotional development - Rebecca Andrews

Development of Self - Rebecca Andrews

Week 12: 24 October

Parenting - Helen Little

Peer relationships - Helen Little

Week 13: 31 October

NO lectures or Tutorials – study week

Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central](https://policies.mq.edu.au) (<https://policies.mq.edu.au>). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Assessment Procedure](#)
- [Complaints Resolution Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#)

Students seeking more policy resources can visit [Student Policies](https://students.mq.edu.au/support/study/policies) (<https://students.mq.edu.au/support/study/policies>). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central](https://policies.mq.edu.au) (<https://policies.mq.edu.au>) and use the [search tool](#).

Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the

University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

Academic Integrity

At Macquarie, we believe [academic integrity](#) – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free [online writing and maths support](#), [academic skills development](#) and [wellbeing consultations](#).

School of Education Procedures

In addition, the following policies and procedures of the School of Education are applicable in this unit.

Fitness to Practice

Academic Senate has approved the development of a Fitness to Practice (FTP) procedure to provide further clarity to students enrolled in practical, clinical and professional programs who have not met the requirements of the General Coursework Rules. It establishes how the University will manage the progression of students enrolled in practical, clinical or professional (PCP) programs or units listed on Schedule 3 of the Academic Progression Policy, with embedded placements and/or registration, accreditation or other mandated requirements.

The Procedure is governed by [General Coursework Rules](#), and the [Academic Progression Policy](#) and is supported by the [Inherent Requirements Framework](#). It provides the process to identify, notify, intervene, support, monitor and exclude when required, those students who are not meeting the FTP requirements of their program.

FTP is the demonstration of professional competence, acceptable professional behaviour, freedom from impairment and compliance with program specific requirements needed for a student to practice properly and safely throughout their practical, clinical or professional program.

Students must ensure they meet Inherent Requirements before enrolling in their program; that they have the physical, cognitive, communication and behavioural capacity to complete the program. Students with a disability or chronic health condition may have reasonable adjustments made. Students must also demonstrate that they are fit to practice and demonstrate the capabilities and professional behaviours required of that profession.

Attendance for undergraduate units

See the university timetable for information about when classes begin in this unit. <https://timetables.mq.edu.au/>

Activities completed during weekly tutorials (internal) or on campus days (external) are essential

for building the core knowledge and/or skills required to demonstrate the learning outcomes of this unit [and to meet the AITSL Graduate Teacher Standards and/or ACECQA requirements]. Attendance at all tutorials or on campus days is expected and the roll will be taken.

Students are required to attend the tutorial in which they are enrolled. Any changes to tutorial enrolments must be completed officially through e-student. Please do not contact the unit convenor requesting a change.

Unit Expectations

- Students are expected to read weekly readings before completing tasks and attending tutorials
- Students are expected to listen/attend weekly lectures before completing tasks and attending tutorials

Note: It is not the responsibility of unit staff to contact students who have failed to submit assignments. If you have any missing items of assessment, it is your responsibility to make contact with the unit convenor.

Electronic Communication

It is the student's responsibility to check all electronic communication on a regular weekly basis. Communication may occur via:

- Official *MQ Student Email* Address
- The *Dialogue* function on iLearn
- Other iLearn communication functions

External Students

- Information about the dates if the on-campus sessions can be found in the university timetable. <https://timetables.mq.edu.au/>
- The on-campus sessions are essential to student engagement and learning and attendance on all days is expected. Failure to attend or to have an approved Special Consideration may result in a Fail grade for the unit. Please see attendance requirements in this unit guide.
- Prior to the on-campus sessions, you should have read the prescribed readings and listened to the lectures. Summarise the main points and make a note of the key terms and definitions. Prepare any discussion questions of your own that you wish to share.
- Please make effective use of the online component of the unit and access iLearn regularly. Keep up to date with listening to the lectures on a weekly basis.

Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

The Writing Centre

[The Writing Centre](#) provides resources to develop your English language proficiency, academic writing, and communication skills.

- [Workshops](#)
- [Chat with a WriteWISE peer writing leader](#)
- [Access StudyWISE](#)
- [Upload an assignment to Studiosity](#)
- [Complete the Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

Student Services and Support

Macquarie University offers a range of [Student Support Services](#) including:

- [IT Support](#)
- [Accessibility and disability support](#) with study
- Mental health [support](#)
- [Safety support](#) to respond to bullying, harassment, sexual harassment and sexual assault
- [Social support including information about finances, tenancy and legal issues](#)

Student Enquiries

Got a question? Ask us via [AskMQ](#), or contact [Service Connect](#).

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

5 Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is

embedded throughout your teacher education course.

Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling.

In this unit, you will learn using the 5Rs framework in the following important ways:

Resilient:

- Assignment feedback aims to focus on development of academic skills and critical thinking to encourage students to use feedback on assignments to improve performance.

Reflexive:

- Tutorial activities encourage examination of alternative interpretations of developmental research and critical thinking about own future role and implications for practice.

Responsive:

- In tutorials students engage in an interactive game looking at how children's early experiences impact brain development and later outcomes for children and examine ways of providing optimal environments and experiences for children to support positive outcomes.

Ready to Learn:

- Students are supported to develop an understanding that research provides the evidence base to inform practice and to identify strategies for supporting children's development.

Research Engaged:

- Lectures cover research methods used in child development research including specific reference to findings from the major longitudinal studies of child development (e.g. NICHD, LSAC & LSIC).
- The major assignment requires students to engage with recent child development research and suggest implications for practice based on the research evidence.
