Unit description
As a foundational unit, this unit invites students to explore the practice of education in Australia today through the lens of what and how children and young people are learning and experiencing in contemporary early childhood, primary and secondary school settings. Concepts and perspectives drawn from sociology and history, and also from philosophy, cultural studies, politics and economics, will support your reflections on your own schooling, your direct observations on contemporary practices in education, and in discerning the implications they hold for your future development as a teacher. The concept of "the curriculum" and its many dimensions are explored as an important unifying theme throughout the unit as we investigate how teachers and school leaders seek to be responsive to students, colleagues, parents and communities in the context of the society schools serve. A wide range of contemporary issues are considered relating to families, gender, equity, indigeneity, media, technology and community. Key moments in the history of Australian education are also identified.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

General Assessment Information

Assessment Presentation and Submission Guidelines

Please follow these guidelines when you submit each assignment:

- Allow a left and right-hand margin of at least 2cm in all assignments.
- Please type all assignments using 12-point font and 1.5 spacing.
- All assessments must be submitted through Turnitin in .doc or .pdf format
- It is the responsibility of the student to ensure that all assessments are successfully submitted through Turnitin.
- Faculty assignment cover sheets are <u>NOT</u> required.

Draft Submissions & Turnitin Originality Reports

- Students may use Turnitin's Originality Report as a learning tool to improve their academic writing if this option is made available in the unit.
- Students are strongly encouraged to upload a draft copy of each assessment to Turnitin at least one week prior to the due date to obtain an Originality Report.
- The Originality Report provides students with a similarity index that may indicate if plagiarism has occurred. Students will be able to make amendments to their drafts prior to their final submission on the due date.
- Generally, one Originality Report is generated every 24 hours up to the due date.

Please note:

- Students should regularly save a copy of all assignments before submission.
- Students are responsible for checking that the correct file has been uploaded, that their submission has been successful, and that it has been submitted by the due date and time.

Assignment extensions and late penalties

- In general, there should be no need for extensions except through illness or misadventure that would be categorised as serious and unavoidable disruption according to the University definition of same, see: https://students.mq.edu.au/study/my-study-program/special-consideration

- Applications for extensions must be made via AskMQ according to the Special Consideration policy. Extensions can only be granted if they meet the Special Considerations policy and are submitted via https://ask.mq.edu.au/. This will ensure consistency in the consideration of such requests is maintained.

- Late submissions: Unless a Special Consideration request has been submitted and approved, (a) a penalty for lateness will apply - 10/100 marks of credit (10% of the total assessment weighting) will be deducted per day for assignments submitted after the due date – and (b) no assignment will be accepted seven days (incl. weekends) after the original submission deadline. No late submissions will be accepted for timed assessment - e.g., quizzes, online tests. A zero result for the assignment will be recorded after the late submission period has ended if no task has been received.

- If a student is still permitted to submit on the basis of unavoidable disruption, an alternative topic may be set.

- Students should keep an electronic file of all assessments. Claims regarding "lost" assessments cannot be made if the file cannot be produced. It is also advisable to keep an electronic file of all drafts and the final submission on a USB untouched/unopened after submission. This can be used to demonstrate easily that the assessment has not been amended after the submission date.

Requesting a re-assessment of an assignment

If you have **evidence** that your task has been incorrectly assessed against the grade descriptors you can request a re-mark. To request a re-mark you need to contact the unit convenor within **7 days** of the date of return of the assignment and provide **a detailed assessment of your script**

against the task criteria. Evidence from your assignment must be provided to support your judgements.

Note:

- Please do not request a re-mark for a Failed assessment as they are all double-marked as a part of the moderation process.
- The outcome of a re-mark may be a **higher/lower or unchanged grade**.
- Grades are *standards referenced* and effort is NOT a criterion.

University policy on grading

Criteria for awarding grades for assessment tasks

Assignments will be awarded grades ranging from HD to F according to guidelines set out in the University's Grading Policy. The following descriptive criteria are included for your information.

Descriptive Criteria for awarding grades in the unit

In order to meet the unit outcomes and successfully pass this unit, students must make a genuine attempt at all assessment tasks. Where any submitted assessment task is considered to be unsatisfactory in this regard, the highest possible final grade that can be awarded for the unit will be 45.

5Rs Framework

The 5Rs Framework, developed by the School of Education at Macquarie University, is embedded throughout your teacher education course. Your use of the 5Rs Framework will help you develop the capabilities that will make your teaching career sustainable and fulfilling. In this unit, you will learn using four components of the 5Rs framework in the following important ways:

- *Resilient:* EDST1000 links students to information about how their pedagogical approaches can impact the wellbeing and resilience of their future students.
- *Reflexive:* EDST1000 has a formative quiz in which students reflect on their beliefs about education, and later an essay in which they expand upon how these were constructed via schooling experiences. Lecture/ tutorial Q&A encourage reflection on a regular basis.
- *Responsive:* EDST1000 requires student engagement in weekly activities in their tutorial engagement assessment (1b). Pro-active participation and responsiveness to the weekly stimuli is required and marked.
- *Research engaged:* EDST1000 engages students with sociology of education research

in the lectures through discussion of statistics and visual data for example, and through their reporting on research findings in Tasks 1 (tutorial leadership & participation), and 2 (essay).
