after tutorial / by appointment

Credit points
10

Prerequisites
Admission to BChiroSc and ANAT1001 or HLTH108

Corequisites

Co-badged status

Unit description
This unit continues to develop themes relating to Chiropractic practice introduced in CHIR1101. Psychomotor skill development includes spinal palpation, basic orthopaedic testing, and soft tissue therapies. Research skills development continues through critical appraisal of published health research. Biomechanical principles pertinent to the practice of chiropractic continue to be developed.
Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

UL01: Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
UL02: Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
UL03: Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention
UL04: Demonstrate research skills at the level of closed inquiry with a high degree of structured guidance as part of a research skills development (RSD) progression

General Assessment Information
Grade descriptors and other information concerning grading are contained in the Macquarie University Assessment Policy.

All final grades are determined by a grading committee, in accordance with the Macquarie University Assessment Policy, and are not the sole responsibility of the Unit Convenor.

Students will be awarded a final grade and a mark which must correspond to the grade descriptors specified in the Assessment Procedure (clause 128).

To pass this unit, you must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements, and achieve a final mark of 50 or better.

Competency based assessment
In higher education, assessments must be able to recognise various levels of competencies in order to encourage students to become not only competent, but progress towards developing expertise. A key component of effective assessment in competency-based education is for assessments to be criterion-based using a developmental perspective. Defining the criteria in developmental terms, commonly called milestones or benchmarks, allows programs to determine whether the trainee is on an appropriate ‘trajectory’.

Milestones provide specific guidance on trainee progress throughout the continuum of their training program. CHIR1102 practical examinations are competency based. For more information see: Competency-based Assessment, Macquarie University

Further details for each assessment task will be available on iLearn.
Late Submissions

Unless a Special Consideration request has been submitted and approved, a 5% penalty (OF THE TOTAL POSSIBLE MARK) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of ‘0’ will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

This will apply to the Video technique assignment (see iLearn for due date)

For example:

<table>
<thead>
<tr>
<th>Number of days (hours) late</th>
<th>Total Possible Marks</th>
<th>Deduction</th>
<th>Raw mark</th>
<th>Final mark</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 day (1-24 hours)</td>
<td>100</td>
<td>5</td>
<td>75</td>
<td>70</td>
</tr>
<tr>
<td>2 days (24-48 hours)</td>
<td>100</td>
<td>10</td>
<td>75</td>
<td>65</td>
</tr>
<tr>
<td>3 days (48-72 hours)</td>
<td>100</td>
<td>15</td>
<td>75</td>
<td>60</td>
</tr>
<tr>
<td>7 days (144-168 hours)</td>
<td>100</td>
<td>35</td>
<td>75</td>
<td>40</td>
</tr>
<tr>
<td>&gt;7 days (&gt;168 hours)</td>
<td>100</td>
<td>-</td>
<td>75</td>
<td>0</td>
</tr>
</tbody>
</table>

For any late submissions of time-sensitive tasks, such as scheduled tests/exams, performance assessments/presentations, and/or scheduled practical assessments/labs, students need to submit an application for Special Consideration.

**Spot Test 1**

Assessment Type: Clinical performance evaluation

Indicative Time on Task: 3 hours

Due: **Week 4**

Weighting: 5%

In-tutorial practical assessment 1

On successful completion you will be able to:

- Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
- Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
- Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention

**Spot Test 2**

Assessment Type: Clinical performance evaluation

Indicative Time on Task: 3 hours

Due: **Week 6**

Weighting: 10%

In-tutorial practical assessment 2

On successful completion you will be able to:

- Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
- Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
- Demonstrate practical use of anatomical knowledge related to patient assessment and
Spot Test 3
Assessment Type 1: Clinical performance evaluation
Indicative Time on Task 2: 3 hours
Due: Week 11
Weighting: 10%

In-tutorial practical assessment 3

On successful completion you will be able to:
- Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
- Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
- Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention

Video technique assignment
Assessment Type 1: Practice-based task
Indicative Time on Task 2: 3 hours
Due: Consult iLearn
Weighting: 5%

Student creation and critique of video to demonstrate an assessment procedure

On successful completion you will be able to:
- Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
- Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
- Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention
End of semester technique assessment

Assessment Type 1: Clinical performance evaluation
Indicative Time on Task 2: 10 hours
Due: Week 13
Weighting: 40%

Practical assessment of procedures as taught in the unit

On successful completion you will be able to:
• Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
• Develop psychomotor skills in patient assessment and therapeutic intervention within a framework of ethical patient interaction
• Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention

End of semester invigilated examination

Assessment Type 1: Examination
Indicative Time on Task 2: 15 hours
Due: University examination period
Weighting: 30%

End of semester invigilated written examination

On successful completion you will be able to:
• Develop theoretical knowledge related to the assessment and treatment of joints and soft tissues
• Demonstrate practical use of anatomical knowledge related to patient assessment and basic intervention
• Demonstrate research skills at the level of closed inquiry with a high degree of structured guidance as part of a research skills development (RSD) progression

1 If you need help with your assignment, please contact:

https://unitguides.mq.edu.au/unit_offerings/149363/unit_guide/print
the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources
As a student enrolled in this unit, you will engage in a range of face-to-face learning activities, including live online lectures, technique labs, readings, and video resources. Details can be found on the iLearn site for this unit.

Unit delivery
Lectures begin in Week 1. Tutorials begin in Week 2

• 1 x two hour lecture per week (W1 - W12) - delivered live online - HIGHLY RECOMMENDED
  ◦ From time-time there will be structured discussion within the lecture based on prepared questions
• 2 x two hour tutorial per week (W2 - W12)
• 2-3 hours per week self-directed learning (e.g. LEGANTO) - HIGHLY RECOMMENDED

Recommended Readings

• Course notes for joint palpation component of CHIR1102 are identical to CHIR1101 and can be downloaded from CHIR1102 iLearn page
• Week-to-week tutorial notes will be downloaded from iLearn
• Access weekly readings from LEGANTO

Technology Used
Active participation in the learning activities throughout the unit will require students to have access to a tablet, laptop or similar device. Students who do not own their own laptop computer may borrow one from the university library.

Policies and Procedures
Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

• Academic Appeals Policy
Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: [https://students.mq.edu.au/admin/other-resources/student-conduct](https://students.mq.edu.au/admin/other-resources/student-conduct)

Results

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit [ask.mq.edu.au](https://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

Academic Integrity

At Macquarie, we believe academic integrity – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free online writing and maths support, academic skills development and wellbeing consultations.

Student Support

Macquarie University provides a range of support services for students. For details, visit [http://students.mq.edu.au/support/](http://students.mq.edu.au/support/)

The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
Student Services and Support

Macquarie University offers a range of Student Support Services including:

- IT Support
- Accessibility and disability support with study
- Mental health support
- Safety support to respond to bullying, harassment, sexual harassment and sexual assault
- Social support including information about finances, tenancy and legal issues

Student Enquiries

Got a question? Ask us via AskMQ, or contact Service Connect.

IT Help

For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University’s IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.

INCLUSION AND DIVERSITY

Social inclusion at Macquarie University is about giving everyone who has the potential to benefit from higher education the opportunity to study at university, participate in campus life and flourish in their chosen field. The University has made significant moves to promote an equitable, diverse and exciting campus community for the benefit of staff and students. It is your responsibility to contribute towards the development of an inclusive culture and practice in the areas of learning and teaching, research, and service orientation and delivery. As a member of the Macquarie University community, you must not discriminate against or harass others based on their sex, gender, race, marital status, carers' responsibilities, disability, sexual orientation, age, political conviction or religious belief. All staff and students are expected to display appropriate behaviour that is conducive to a healthy learning environment for everyone.

PROFESSIONALISM

In the Faculty of Medicine, Health and Human Sciences, professionalism is a key capability
As part of developing professionalism, students are **expected to attend all small group interactive sessions** including clinical, practical, laboratory, work-integrated learning (e.g., PACE placements), and team-based learning activities. Some learning activities are recorded (e.g., face-to-face lectures), however you are encouraged to avoid relying upon such material as they do not recreate the whole learning experience and technical issues can and do occur. As an adult learner, we respect your decision to choose how you engage with your learning, but we would remind you that the learning opportunities we create for you have been done so to enable your success, and that by not engaging you may impact your ability to successfully complete this unit. We equally expect that you show respect for the academic staff who have worked hard to develop meaningful activities and prioritise your learning by communicating with them in advance if you are unable to attend a small group interactive session.

Another dimension of professionalism is having respect for your peers. It is the right of every student to learn in an environment that is free of disruption and distraction. Please arrive to all learning activities on time, and if you are unavoidably detained, please join activity as quietly as possible to minimise disruption. Phones and other electronic devices that produce noise and other distractions must be turned off prior to entering class. Where your own device (e.g., laptop) is being used for class-related activities, you are asked to close down all other applications to avoid distraction to you and others. Please treat your fellow students with the utmost respect. If you are uncomfortable participating in any specific activity, please let the relevant academic know.
