Disclaimer
Macquarie University has taken all reasonable measures to ensure the information in this publication is accurate and up-to-date. However, the information may change or become out-dated as a result of change in University policies, procedures or rules. The University reserves the right to make changes to any information in this publication without notice. Users of this publication are advised to check the website version of this publication [or the relevant faculty or department] before acting on any information in this publication.

Notice
As part of Phase 3 of our return to campus plan, most units will now run tutorials, seminars and other small group activities on campus, and most will keep an online version available to those students unable to return or those who choose to continue their studies online.

To check the availability of face-to-face activities for your unit, please go to timetable viewer. To check detailed information on unit assessments visit your unit’s iLearn space or consult your unit convenor.

Admission to MPH or MPH(Res)

Corequisites

Co-badged status

Unit description
Health promotion creates supportive conditions for health, enabling people to have control over, and improve their health and wellbeing. Health promotion officers need to have a good understanding of health promotion approaches and behaviour change models in order to engage communities and enable people to address their health needs. In this unit you will develop an understanding of health promotion concepts, frameworks and theories used to formulate policy and develop programs tailored for a variety of settings. The unit is taught with an emphasis on the determinants of health and health inequities, including economic, social and environmental influences. The key skills you will develop include designing and evaluating evidence-based health promotion initiatives within a specific population/community. These skills will prepare you for a career in health promotion practice and research.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Explain health promotion concepts and principles in planning and practice
ULO2: Analyse the range of factors that influence the health of individuals and populations, including social determinants of health and lifestyle behaviours
ULO3: Identify and critically analyse the range of theoretical and practical intervention frameworks available for disease prevention and health promotion delivery within a specific population/community
ULO4: Design and evaluate health promotion strategies to demonstrate effective application of key principles and theoretical models of health promotion

General Assessment Information

Information concerning Macquarie University's assessment policy is available at https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/assessment. Grade descriptors and other information concerning grading requirements are contained in Schedule 1 of the Macquarie University Assessment Policy.

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes and attempt all assessment tasks.

Further details for each assessment task will be available on iLearn, including marking rubrics.

All final grades in the department of Health Systems and Populations are determined by a grading committee and are not the sole responsibility of the Unit Convenor.

Students will be awarded one of these grades plus a Standardised Numerical Grade (SNG). The SNG is not necessarily a summation of the individual assessment components. The final grade and SNG that are awarded reflect the corresponding grade descriptor in Schedule 1 of the Assessment Policy.

Extensions for Assessment tasks

Late Submission of Work

All assignments which are officially received after the due date, and where no extension has been granted by the course convenor or tutor, will incur a deduction of 5% per day penalty including weekends and public holidays. If you submit the assessment task 10 days or more beyond the due date, without an approved extension, you will be awarded a maximum of 50% of the overall assessment marks.

For example:

<table>
<thead>
<tr>
<th>Due date</th>
<th>Received</th>
<th>Days late</th>
<th>Deduction</th>
<th>Raw mark</th>
<th>Final mark</th>
</tr>
</thead>
<tbody>
<tr>

<td>Week 15</td>
</tr>
</tbody>
</table>

### Health promotion program - plan

Assessment Type ¹: Plan  
Indicative Time on Task ²: 20 hours  
Due: **Week 4**  
Weighting: **20%**

Proposed plan for health promotion program including formative feedback

On successful completion you will be able to:
- Explain health promotion concepts and principles in planning and practice
- Analyse the range of factors that influence the health of individuals and populations, including social determinants of health and lifestyle behaviours
- Identify and critically analyse the range of theoretical and practical intervention frameworks available for disease prevention and health promotion delivery within a specific population/community

### Health promotion program - design

Assessment Type ¹: Plan  
Indicative Time on Task ²: 30 hours  
Due: **Week 8**  
Weighting: **40%**

Design of health promotion program bases on previously submitted plan

On successful completion you will be able to:
- Explain health promotion concepts and principles in planning and practice
- Analyse the range of factors that influence the health of individuals and populations, including social determinants of health and lifestyle behaviours
- Identify and critically analyse the range of theoretical and practical intervention
frameworks available for disease prevention and health promotion delivery within a specific population/community

• Design and evaluate health promotion strategies to demonstrate effective application of key principles and theoretical models of health promotion

Health promotion program - evaluation

Assessment Type 1: Plan
Indicative Time on Task 2: 30 hours
Due: Week 13
Weighting: 40%

Evaluation of the submitted health promotion program

On successful completion you will be able to:

• Analyse the range of factors that influence the health of individuals and populations, including social determinants of health and lifestyle behaviours
• Identify and critically analyse the range of theoretical and practical intervention frameworks available for disease prevention and health promotion delivery within a specific population/community
• Design and evaluate health promotion strategies to demonstrate effective application of key principles and theoretical models of health promotion

Portfolio reflection

Assessment Type 1: Reflective Writing
Indicative Time on Task 2: 3 hours
Due: Week 15
Weighting: 0%

Reflection of student performance and achievement of unit learning outcomes

On successful completion you will be able to:

• Explain health promotion concepts and principles in planning and practice
• Analyse the range of factors that influence the health of individuals and populations, including social determinants of health and lifestyle behaviours
• Identify and critically analyse the range of theoretical and practical intervention frameworks available for disease prevention and health promotion delivery within a specific population/community

1 If you need help with your assignment, please contact:
• the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
• the Learning Skills Unit for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Unit Organisation

This is a ten credit point unit run over a 13 week session. Further information is available via the online Learning Management System (LMS) iLearn http://ilearn.mq.edu.

Readings

The readings for each week will be listed in ilearn using the Leganto system. Leganto is the reading list management system, which you can access through your iLearn unit. More information on Leganto is available here: http://libguides.mq.edu.au/leganto

Readings marked as 'required' are essential for completion in the marked week. Some readings may be included that are marked as 'recommended' or 'secondary sources', these are additional materials that may be of interest to you. Please use these at your discretion.

Technology and equipment

Off-campus

To study optimally when off campus you will need to have access to a reliable internet connection to retrieve unit information and at times to join interactive session (eg zoom) or submit assessment tasks via iLearn.

On-campus

Teaching rooms are equipped with state of art audio-visual and ICT equipment including internet connection, high quality video cameras and multiple LCD screens.

Where learning activities (such as tutorials and other small group learning activities) are offered on-campus an online version will be available for those students who choose to continue their studies online (selected via eStudent).

Policies and Procedures

Macquarie University policies and procedures are accessible from Policy Central (https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:
Students seeking more policy resources can visit Student Policies (https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit Policy Central (https://policies.mq.edu.au) and use the search tool.

**Student Code of Conduct**

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: https://students.mq.edu.au/admin/other-resources/student-conduct

**Results**

Results published on platform other than eStudent, (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in eStudent. For more information visit ask.mq.edu.au or if you are a Global MBA student contact globalmba.support@mq.edu.au

**Student Support**

Macquarie University provides a range of support services for students. For details, visit http://students.mq.edu.au/support/

**The Writing Centre**

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- Getting help with your assignment
- Workshops
- Chat with a WriteWISE peer writing leader
- Access StudyWISE
- Upload an assignment to Studiosity
- Complete the Academic Integrity Module

The Library provides online and face to face support to help you find and use relevant resources.
Student Enquiry Service
For all student enquiries, visit Student Connect at ask.mq.edu.au
If you are a Global MBA student contact globalmba.support@mq.edu.au

Equity Support
Students with a disability are encouraged to contact the Disability Service who can provide appropriate help with any issues that arise during their studies.

IT Help
For help with University computer systems and technology, visit http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/.

When using the University's IT, you must adhere to the Acceptable Use of IT Resources Policy. The policy applies to all who connect to the MQ network including students.
