Unit description

Strategic planning is a key practice for planners. This unit focuses on urban strategic planning at the State and local level, drawing on existing strategic plans at both levels of government in the Australian context. This unit allows students to develop practical skills for urban strategic planning, while also drawing on recent academic research. On completion of this unit students will know how to approach urban strategic planning as an inter-agency/intra-department process. Students will gain practical experience in assessing the scope of issues covered in urban strategic plans and knowledge about effective strategy development, plan making and communication.
