Required resources:

Recommended:

We also expect you to develop good dictionary skills using websites like dictionary.com and rae.es. Google Translate and similar machine translation tools are not adequate dictionaries for translation as they omit context, don’t give functional examples of language in use, and often provide the wrong word if the student doesn’t know what they are looking for (e.g. nouns instead of verbs).

For students who do not have a sound foundation of basic grammatical knowledge we recommend, in addition to consulting MQ Learning Skills Advisers or completing MQ grammar workshops, the following text:

Here are also recommended readings if you wish to know more about translation theories:
