Unit description

This introductory unit in corporate finance focuses on the financing and investing decisions made by the finance manager of an organisation. While the emphasis is on the theory of the firm, students are also given exposure to current issues affecting corporate finance.

Satisfactory completion of the unit equips students with a grasp of the following principals of financial economics: the relation between risk and expected return and the time value of money. The unit also provides an introductory coverage of derivative securities and no arbitrage valuation in the international finance.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Discuss fundamental aspects of the theory of the firm and outline current issues affecting corporate finance.

ULO2: Explain financing and investing decisions made by finance managers.

ULO3: Demonstrate understanding of the relation between risk and expected return, the time value of money, and valuation of securities via discounted cash flows.

ULO4: Apply fundamental analytical techniques in finance to simple real-life problems.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Other assessment criteria for assessment tasks will be provided on the unit iLearn site.

Special consideration

For the Mid Session Test, where special consideration is applied for and approved, students will be given a verbal examination by two members of staff.

Delivery and Resources

Classes

- Students should view the prerecorded lecture each week as well as the appropriate tutorial.
- Online lectures and tutorials will be available each week as well as online consultation.
- Tutorials begin in Week 2 and cover material based on the preceding week's lecture topic.
- Students should attend online PAL Sessions where necessary to improve their understanding of the material covered.

Required and Recommended Texts and/or Materials

The textbook will assist you in the weekly quizzes. Detailed textbook requirements are available on ilearn.

Required Textbook (source for weekly tutorial questions):

- *Fundamentals of Corporate Finance 4th Edition Print and Interactive E-Text* ISBN : 9780730382577

or

- *Fundamentals of Corporate Finance 4th Edition Interactive Wiley E-Text* ISBN : 9780730382492

Recommended Textbooks:

- *Fundamentals of Corporate Finance, Australian 3rd Edition* ISBN : 9780730355175 or 9780730363460 (*Fundamentals*)

- *International Financial Management: Sixth Edition* ISBN-978-0-07-803465-7 (*EUN*)

Technology Used and Required

- Financial non-programmable calculators can be used in the unit. A financial calculator is not essential as a scientific non-programmable calculator should meet all your needs (calculation of the Internal Rate of Return (IRR) is not required in any of the assessment tasks). Note: Only non-programmable calculators without text retrieval functionality are allowed for use in the unit's assessments tasks.
- Students should have access to the internet.

Unit Web Page

- Course material and announcements are available on the learning management system (iLearn).
- Students should check iLearn regularly before each lecture, tutorial and assessment.

Learning and Teaching Activities

The unit is delivered through weekly lectures and tutorial classes. Tutorial questions will mostly be sourced from the required textbook. The question numbers that will be discussed in tutorials will be posted to iLearn each week. Students should attempt these questions before tutorials. Brief answers to the tutorial questions will be posted on iLearn after each week.

To achieve the best possible results students should:

- 1) View all lectures and tutorial classes.
- 2) Tutorial questions and problems are assigned from the required text book;
- 3) Read the assigned chapters of the required text book before attending lectures;

4) Download lecture notes from iLearn, which are available weekly before lectures. Ensure these notes are brought to lectures.

5) Attend PAL sessions where difficulties are experienced.
