Unit description

This unit provides students with an overview of the theories, practices and frameworks of health promotion as a planned approach to the improvement of health in population groups. It focuses on both local and global health promotion issues. The unit aims to increase students' understanding of the determinants of health and how these impact on the planning, implementation and evaluation of health promotion initiatives. The teaching approach facilitates a systematic approach to health promotion initiatives. The unit uses a mixture of academic texts, case studies, scenarios and reflective learning practices to immerse students in the study of modern health promotion and disease prevention and reduction practices. While designed primarily for health studies students, the unit is also suitable for students from other programs who may be interested in the social, economic, political and geographic aspects of this fundamental area of human health endeavours.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Define and describe health promotion and its place within the area of public health, both nationally and internationally.

ULO2: Summarise key theories of contemporary health promotion and their connection to health determinants.

ULO3: Critically analyse some health promotion programs and projects in terms of their application of theories and practices of contemporary health promotion.

ULO4: Discuss and make informed opinions about some of the social, cultural, economic and political factors that may influence health promotion initiatives nationally and internationally.

ULO5: Describe the various elements that are needed to plan, implement and evaluate a health promotion initiative and be able to apply this knowledge to the development of a health promotion initiative.

ULO6: Examine and form opinions about academic writings on the process and application of an evidence-based approach to health promotion initiatives.

ULO7: Gain some insights into the rapidly evolving nature of health promotion globally and the effect on health promotion practitioners, with an emphasis on working in teams, across sectors and incorporating continuous flexible learning practices.

General Assessment Information

All final grades are determined by a grading committee, in accordance with the Macquarie University [Assessment Policy](#), and are not the sole responsibility of the Unit Convenor. Students will be awarded a final grade, which corresponds to the grade descriptors specified in the [Assessment Procedure](#) (clause 128).

To pass this unit, students must demonstrate sufficient evidence of achievement of the learning outcomes, meet any ungraded requirements including professionalism, and achieve a final mark of 50 or better.

Further details for each assessment task will be available on iLearn.

Extensions for Assessment tasks

Applications for assessment task extensions must be submitted via www.ask.mq.edu.au. For further details please refer to the Disruption to Studies Policy available at <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/disruption-to-studies>.

Late Submission of Work

All assignments which are officially received after the due date, and where no extension has been granted by the course convenor or tutor, will incur a deduction of 5% per day penalty including weekends and public holidays. If you submit the assessment task 10 days or more beyond the due date, without an approved extension, you will be awarded a maximum of 50% of the overall assessment marks.

For example:

Due date	Received	Days late	Deduction	Raw mark	Final mark
Friday 14th	Saturday 15th	1	5%	75%	70%
Friday 14th	Monday 17th	3	15%	75%	60%
Friday 14th	Tuesday 25th	11	55%	75%	50% (capped)
