Unit description

The field of marketing is becoming more technology and data-driven. Companies are increasingly demanding marketing talents who possess the ability to navigate and harness digital touchpoints in creating a personalised brand and user experience. This unit develops students' knowledge on the role of customer data, marketing automation, and intelligent workflow design in uncovering marketing insights, optimising the marketing mix, and facilitating greater marketing agility. This unit bridges the gap between marketing and technology, and develops students' knowledge of technology platforms, skills in analytical thinking and problem solving and understanding of digital-sustainable marketing strategy.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Identify and explain the role of technology and data in enhancing marketing strategies.

ULO2: Analyse and interpret marketing practices that use technology to solve problems.

ULO3: Critically evaluate the capacity for technology to foster sustainable marketing practices.

General Assessment Information

Late Assessment Submission Penalty

*Unless an application for **Special Consideration** has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends).
