### Unit description

This unit will introduce you to the principles underpinning the practice of evidence-based health care, whereby research evidence is integrated with clinical expertise and clients' / patients' values. Specifically, you will learn how to formulate clinical questions about diagnosis, prognosis and treatment, and locate and critically appraise relevant evidence to answer those questions. This unit will provide you with an evidence-based framework for concurrent and future units to enhance communication, reflection and life-long learning skills. Through integration with students within the Doctor of Physiotherapy you will undertake an interprofessional community-based clinical component, developing foundational skills in how to implement evidence-based health care in clinical practice.

## Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

## Learning Outcomes

On successful completion of this unit, you will be able to:

**ULO1:** Critically appraise relevant research using standardised checklists to evaluate the validity and interpretation of studies about diagnosis, prognosis and treatment (Capability 1: Scientist and Scholar)

**ULO2:** Competently formulate relevant clinical questions about diagnosis, prognosis and treatment of conditions for which people seek healthcare (Capability 2: Clinical Practitioner)

**ULO3:** Apply knowledge and skills in evidence-based healthcare to develop relevant written reports and critically appraise topic reviews which meet academic writing and referencing standards (Capability 1: Scientist and Scholar)

**ULO4:** Competently use electronic resources to search health and medical literature to locate relevant research evidence to answer clinical questions to enhance the practice of medicine (Capability 1: Scientist and Scholar)

**ULO5:** Discuss practical strategies to successfully implement current evidence into clinical practice (Capability 2: Clinical Practitioner)

**ULO6:** Explain how psychological, social and cultural issues affect the health of individuals and populations and how diversity can be respected within the context of evidence-based healthcare (Capability 3: Engaged Global Citizen)

**ULO7:** Participate effectively in classes and peer teams, by seeking and reflecting upon feedback on own your performance to generate strategies that optimise individual and team performance (Capability 4: Professional)

**ULO8:** Communicate and behave effectively and professionally in accordance with ethical, legal and professional standards of care whilst undertaking community clinical placement activities. (Capability 4: Professional)

## General Assessment Information

Detailed information regarding the assessment of the Macquarie MD and unit-specific assessment is available on the MQMDAssess Macquarie MD Assessment 2022 Intake iLearn site and the MEDI8102 iLearn site.

In this unit all assessment tasks will be coarse graded, with grades (P+, P, P-, F) assigned to the focused and generic MD Capability Aspects as well as overall task performance. Only the coarse grade for the overall performance of assessment tasks weighted according to their contribution will be used to calculate the overall unit aggregate. Unit outcomes based on the unit aggregate will be reported to the University using the standard Macquarie grades (High distinction, Distinction, Credit, Pass, Fail). A single numerical grade (SNG) will be reported for each University grade. The conversion of the aggregate to SNG are available in the Macquarie MD Rules of Assessment and Progression document posted in the Policies and Guidelines section of the MDCU Doctor of Medicine Community iLearn site.

All final grades in the Macquarie MD are reviewed by the MD Course Board and Faculty Assessment Committee and ratified by the Faculty of Medicine, Health and Human Sciences Faculty Board. Therefore, they are not the sole responsibility of the Unit Convenor. To pass this unit students must demonstrate sufficient evidence of achievement of the learning outcomes, attempt all assessment tasks, and meet any ungraded requirements which include professionalism.

### Extensions for Assessment tasks

Applications for assessment task extensions must be submitted via <https://ask.mq.edu.au/>. For further details please refer to the Special Consideration Policy available at <https://students.mq.edu.au/study/my-study-program/special-consideration>

### Professional Expectations

Professionalism is a key capability embedded in the Macquarie MD. Professional Behaviour Notifications (PBN) which can be a breach (PBNB) or a commendation (PBNC) may be awarded. PBNs will be recorded in the student's portfolio. As part of developing professionalism, Macquarie MD students are expected to attend all small group interactive sessions including tutorials. If attendance is deemed to be of concern, the student will be referred to the Stage 1 Lead for remediation, subsequent monitoring, and recording in the portfolio. Similarly, as part of developing professionalism, Macquarie MD students are expected to submit all work by the due date. Late submission without prior approved extension will result in a professional behaviour notification- breach (PBNB) in the portfolio.

## Assessment Tasks

Name	Weighting	Hurdle	Due
<a href="#"><u>Clinical Education Simulation and Reflection - Part 1</u></a>	40%	No	Week 6
<a href="#"><u>Clinical Education Simulation and Reflection - Part 2</u></a>	40%	No	Week 10
<a href="#"><u>Clinical Reflection Report</u></a>	20%	No	Week 13
<a href="#"><u>Clinical Placement Logbook</u></a>	0%	Yes	Week 14

### Clinical Education Simulation and Reflection - Part 1

Assessment Type <sup>1</sup>: Simulation/role play

Indicative Time on Task <sup>2</sup>: 20 hours

Due: **Week 6**

Weighting: **40%**

This assessment task will involve submitting an audio or video where you will simulate being a future clinician educating your HAWC volunteer about their condition with a focus on their diagnosis and prognosis. In a written reflection, you will evaluate the alignment between the health care journey of the your HAWC volunteer and the best available evidence. Overall performance, capability aspects and Stage 1 EPAs may be assessed and results recorded in your Macquarie Assessment Portfolio.

On successful completion you will be able to:

- Critically appraise relevant research using standardised checklists to evaluate the validity and interpretation of studies about diagnosis, prognosis and treatment (Capability 1: Scientist and Scholar)
- Competently formulate relevant clinical questions about diagnosis, prognosis and treatment of conditions for which people seek healthcare (Capability 2: Clinical Practitioner)
- Apply knowledge and skills in evidence-based healthcare to develop relevant written reports and critically appraise topic reviews which meet academic writing and referencing standards (Capability 1: Scientist and Scholar)
- Competently use electronic resources to search health and medical literature to locate relevant research evidence to answer clinical questions to enhance the practice of medicine (Capability 1: Scientist and Scholar)

- Explain how psychological, social and cultural issues affect the health of individuals and populations and how diversity can be respected within the context of evidence-based healthcare (Capability 3: Engaged Global Citizen)
- Communicate and behave effectively and professionally in accordance with ethical, legal and professional standards of care whilst undertaking community clinical placement activities. (Capability 4: Professional)

## Clinical Education Simulation and Reflection - Part 2

Assessment Type <sup>1</sup>: Simulation/role play

Indicative Time on Task <sup>2</sup>: 20 hours

Due: **Week 10**

Weighting: **40%**

This assessment task will involve submitting an audio or video where you will simulate being a future clinician educating your HAWC volunteer about the treatments available for their main condition according to the best available evidence. In a written reflection, you will evaluate the alignment between the health care journey of the your HAWC volunteer and the best available evidence. Overall performance, capability aspects and Stage 1 EPAs may be assessed and results recorded in your Macquarie Assessment Portfolio.

On successful completion you will be able to:

- Critically appraise relevant research using standardised checklists to evaluate the validity and interpretation of studies about diagnosis, prognosis and treatment (Capability 1: Scientist and Scholar)
- Competently formulate relevant clinical questions about diagnosis, prognosis and treatment of conditions for which people seek healthcare (Capability 2: Clinical Practitioner)
- Apply knowledge and skills in evidence-based healthcare to develop relevant written reports and critically appraise topic reviews which meet academic writing and referencing standards (Capability 1: Scientist and Scholar)
- Competently use electronic resources to search health and medical literature to locate relevant research evidence to answer clinical questions to enhance the practice of medicine (Capability 1: Scientist and Scholar)
- Discuss practical strategies to successfully implement current evidence into clinical practice (Capability 2: Clinical Practitioner)
- Explain how psychological, social and cultural issues affect the health of individuals and

populations and how diversity can be respected within the context of evidence-based healthcare (Capability 3: Engaged Global Citizen)

- Participate effectively in classes and peer teams, by seeking and reflecting upon feedback on own your performance to generate strategies that optimise individual and team performance (Capability 4: Professional)
- Communicate and behave effectively and professionally in accordance with ethical, legal and professional standards of care whilst undertaking community clinical placement activities. (Capability 4: Professional)

## Clinical Reflection Report

Assessment Type <sup>1</sup>: Reflective Writing

Indicative Time on Task <sup>2</sup>: 15 hours

Due: **Week 13**

Weighting: **20%**

This Assessment Task is comprised of two brief reports that requires you to reflect on your clinical experiences in this unit: (1) a Formal Feedback Report; (2) Clinical Reflection Report. Overall performance and specific capability aspects will be assessed and results recorded in your Macquarie Assessment Portfolio.

On successful completion you will be able to:

- Discuss practical strategies to successfully implement current evidence into clinical practice (Capability 2: Clinical Practitioner)
- Explain how psychological, social and cultural issues affect the health of individuals and populations and how diversity can be respected within the context of evidence-based healthcare (Capability 3: Engaged Global Citizen)
- Participate effectively in classes and peer teams, by seeking and reflecting upon feedback on own your performance to generate strategies that optimise individual and team performance (Capability 4: Professional)
- Communicate and behave effectively and professionally in accordance with ethical, legal and professional standards of care whilst undertaking community clinical placement activities. (Capability 4: Professional)

## Clinical Placement Logbook

Assessment Type <sup>1</sup>: Log book

Indicative Time on Task <sup>2</sup>: 3 hours

Due: **Week 14**

Weighting: **0%**

**This is a hurdle assessment task (see [assessment policy](#) for more information on hurdle assessment tasks)**

This assessment task requires you to submit a detailed logbook of your clinical placement hours for the unit. This result will be recorded overall and for specific capability aspects in your Macquarie Assessment Portfolio.

On successful completion you will be able to:

- Discuss practical strategies to successfully implement current evidence into clinical practice (Capability 2: Clinical Practitioner)
- Explain how psychological, social and cultural issues affect the health of individuals and populations and how diversity can be respected within the context of evidence-based healthcare (Capability 3: Engaged Global Citizen)
- Participate effectively in classes and peer teams, by seeking and reflecting upon feedback on own your performance to generate strategies that optimise individual and team performance (Capability 4: Professional)
- Communicate and behave effectively and professionally in accordance with ethical, legal and professional standards of care whilst undertaking community clinical placement activities. (Capability 4: Professional)

---

<sup>1</sup> If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

<sup>2</sup> Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

### Teaching and Learning Strategy

This unit integrates the development of Evidence-based and Inter-professional Health Care skills in lectures and tutorials with clinical application in the Community Clinical Placement. Lectures will provide foundation knowledge, using a variety of delivery modes, including online lectures and Connected Curriculum modules. Tutorials will give students the opportunity to develop practical skills in the key topics, such as formulating clinical questions, searching electronic

databases and critical appraisal of evidence. Students will integrate these skills with their experiences on their Community Clinical Placement, to implement Evidence-Based Health Care in clinical practice.

### **Inter-professional Learning and Teaching**

Students will have a unique opportunity to work together with the Doctor of Physiotherapy students on the Community Clinical Placements, and during lectures and tutorials. The unit is delivered by an inter-professional team, including health professionals, academics and clinicians with expertise in medicine, physiotherapy, and other clinical backgrounds.

### **Attendance**

All lectures are pre-recorded and will be available for viewing prior to tutorial classes. On-campus tutorials are scheduled in your individual timetable. The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>.

Failure to attend/complete any learning and teaching activities, including lectures and tutorials, may impact your final results. It is the responsibility of the student to contact their tutor or the unit convenor by email to inform if they are going to be absent.

### **iLearn**

This unit's iLearn site will provide weekly resources for students, including:

- lecture notes
- tutorial worksheets
- preparation and consolidation material
- videos
- other teaching resources
- assessment details

### **Unit materials and readings**

Strauss *et al.* Evidence-Based Medicine: How to Practice and Teach it. (5th Ed.) is the recommended text. Copies will be available online through the library. Weekly readings will come from journal articles and other resources. These will be available on iLearn (Unit Readings and Access to Papers) or MQ Library e-reserve.

### **Technology and Equipment**

To study optimally when off campus you will need to have access to a reliable internet connection to retrieve unit information and at times to submit assessment tasks via iLearn.

### **Consultation with staff**

All staff will be available for individual consultations, please see iLearn site for information on staff availability for consultation.

## Policies and Procedures

Macquarie University policies and procedures are accessible from [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au). Students should be aware of the following policies in particular with regard to Learning and Teaching:

- [Academic Appeals Policy](#)
- [Academic Integrity Policy](#)
- [Academic Progression Policy](#)
- [Assessment Policy](#)
- [Fitness to Practice Procedure](#)
- [Assessment Procedure](#)
- [Complaints Resolution Procedure for Students and Members of the Public](#)
- [Special Consideration Policy](#)

Students seeking more policy resources can visit [Student Policies \(https://students.mq.edu.au/support/study/policies\)](https://students.mq.edu.au/support/study/policies). It is your one-stop-shop for the key policies you need to know about throughout your undergraduate student journey.

To find other policies relating to Teaching and Learning, visit [Policy Central \(https://policies.mq.edu.au\)](https://policies.mq.edu.au) and use the [search tool](#).

## Student Code of Conduct

Macquarie University students have a responsibility to be familiar with the Student Code of Conduct: <https://students.mq.edu.au/admin/other-resources/student-conduct>

## Results

Results published on platform other than [eStudent](#), (eg. iLearn, Coursera etc.) or released directly by your Unit Convenor, are not confirmed as they are subject to final approval by the University. Once approved, final results will be sent to your student email address and will be made available in [eStudent](#). For more information visit [ask.mq.edu.au](https://ask.mq.edu.au) or if you are a Global MBA student contact [globalmba.support@mq.edu.au](mailto:globalmba.support@mq.edu.au)

## Academic Integrity

At Macquarie, we believe [academic integrity](#) – honesty, respect, trust, responsibility, fairness and courage – is at the core of learning, teaching and research. We recognise that meeting the expectations required to complete your assessments can be challenging. So, we offer you a range of resources and services to help you reach your potential, including free [online writing and maths support](#), [academic skills development](#) and [wellbeing consultations](#).

## Student Support

Macquarie University provides a range of support services for students. For details, visit <http://students.mq.edu.au/support/>

## The Writing Centre

The Writing Centre provides resources to develop your English language proficiency, academic writing, and communication skills.

- [Workshops](#)
- [Chat with a WriteWISE peer writing leader](#)
- [Access StudyWISE](#)
- [Upload an assignment to Studiosity](#)
- [Complete the Academic Integrity Module](#)

The Library provides online and face to face support to help you find and use relevant information resources.

- [Subject and Research Guides](#)
- [Ask a Librarian](#)

## Student Services and Support

Macquarie University offers a range of [Student Support Services](#) including:

- [IT Support](#)
- [Accessibility and disability support](#) with study
- Mental health [support](#)
- [Safety support](#) to respond to bullying, harassment, sexual harassment and sexual assault
- [Social support including information about finances, tenancy and legal issues](#)

## Student Enquiries

Got a question? Ask us via [AskMQ](#), or contact [Service Connect](#).

## IT Help

For help with University computer systems and technology, visit [http://www.mq.edu.au/about\\_us/offices\\_and\\_units/information\\_technology/help/](http://www.mq.edu.au/about_us/offices_and_units/information_technology/help/).

When using the University's IT, you must adhere to the [Acceptable Use of IT Resources Policy](#). The policy applies to all who connect to the MQ network including students.

## Changes from Previous Offering

This unit was previously co-taught with Macquarie DPT for the entire 13 week session. This unit will remain co-taught with PHTY8104 (Macquarie DPT) from Weeks 1-7, to provide an inter-professional learning experience, with content solely delivered to MEDI8102 from Week 8 onwards.
