Unit description

This unit introduces students to the entrepreneurial process of generating ideas, identifying opportunities and developing these opportunities. Students will study business concepts and processes that support the successful launch and operation of entrepreneurial ventures. The unit is taught through experiential learning where students acquire the knowledge to launch new business ventures. Students will learn how to investigate market dynamics and customer needs to generate innovative ideas. Students will bring together the knowledge acquired across different disciplines, including sustainable thinking, as they provide recommendations to launch or re-launch a sustainable new business venture.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Describe and explain key entrepreneurship concepts, theories and principles, including knowledge of different types of entrepreneurs.

ULO2: Apply knowledge of the various perspectives of entrepreneurship that reflect sustainable value for business and society.

ULO3: Analyse the strategies of an existing business venture and develop recommendations that integrate key management, marketing and operation models to

create a coherent, feasible and sustainable new venture plan.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.
