Unit description
Marketing strategy is fundamental to business success. Marketing strategy is what guides the development and delivery of the firms’ value offering. Marketing strategy outlines a company’s overall plan to reach, communicate with, and turn people into customers. Marketing strategy contains key messages of value propositions that a company wishes to deliver to the market. In this unit students learn how to apply tools and concepts that enable marketing strategies to be developed, evaluated and implemented. The unit focuses on the analysis process: identifying information needs, acquiring the necessary information, interpreting it, and using it as the basis for business recommendations.

Important Academic Dates
Information about important academic dates including deadlines for withdrawing from units are available at https://www.mq.edu.au/study/calendar-of-dates

Learning Outcomes
On successful completion of this unit, you will be able to:

ULO1: Employ problem solving skills to develop and communicate solutions for a range of marketing strategy situations.

ULO2: Critically analyse the theoretical and conceptual underpinnings of marketing strategies.
ULO3: Develop and apply competitive marketing strategies in collaboration.

General Assessment Information

Late submissions of assessments Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Special Consideration To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Simulation

Assessment Type 1: Simulation/role play

https://unitguides.mq.edu.au/unit_offerings/150380/unit_guide/print
Indicative Time on Task: 30 hours
Due: Weekly, and report due week 13
Weighting: 40%

Student teams will participate in a competitive marketing simulation. During the session, students will use critical thinking and problem solving skills to make decisions about how to manage the marketing of simulated products. They will compete against other students in the unit. Although limited class time will be set aside for teams to make decisions, student teams will also need to meet outside class time. Students will be observed by their lecturers and students will also report on what happened in their student teams. Although the simulation activities happen in teams, 75% of marks are based on an individual learning self-assessment submission that each student writes up. Length: 1 individual submission 2000 word limit which provides a reflection on the student's individual learning based on the simulation task. The remainder is based on the student's performance in the simulation task.

On successful completion you will be able to:

- Employ problem solving skills to develop and communicate solutions for a range of marketing strategy situations.
- Develop and apply competitive marketing strategies in collaboration.

Weekly Case Discussion
Assessment Type: Participatory task
Indicative Time on Task: 10 hours
Due: Weekly for weeks 3-12 inclusive
Weighting: 40%

These tasks will allow students to make verbal contributions to applied situations and hone their ability to apply marketing strategy to real situations. Lecturers may use a one or more methods to encourage discussion including: break-out groups, presentations, and open discussion. Students are required to be physically present in class for eight of the ten tasks in this unit. All students are also expected to verbally communicate in those discussions. A significant amount of marks are based on verbal communications skills and the remainder on the ability to apply marketing strategy. Length: Students attend a minimum of 8 out of 10 weekly oral case discussions.

On successful completion you will be able to:

- Employ problem solving skills to develop and communicate solutions for a range of marketing strategy situations.
• Critically analyse the theoretical and conceptual underpinnings of marketing strategies.

## Strategic Marketing Plan

**Assessment Type**: Plan

**Indicative Time on Task**: 30 hours

**Due**: Week 12

**Weighting**: 20%

Students will be asked to write up a marketing strategic plan of one written case. The case to be analysed will be announced at the end of week six and provided on iLearn. The format for the analysis will be provided during the session, but it will be based on the four principles reviewed in the textbook and emphasize a 4Ps marketing plan based on the application of those principles. Students will be assessed on both written communications as well as demonstration of problem solving and critical thinking skills. Length: 1 individual submission, 1,250 word limit

On successful completion you will be able to:

- Employ problem solving skills to develop and communicate solutions for a range of marketing strategy situations.
- Critically analyse the theoretical and conceptual underpinnings of marketing strategies.

1 If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the Writing Centre for academic skills support.

2 Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

## Delivery and Resources

Students enrolled in ONLINE DELIVERY: there will be 1-hour online pre-recorded lecture on a weekly basis, plus a 2-hour online weekly workshop.

Students enrolled in FACE-TO-FACE DELIVERY: there will be 1-hour online pre-recorded lecture on a weekly basis, plus a 2-hour face-to-face weekly workshop.

This is a case study oriented unit that uses an extensive simulation. Recorded weekly lectures are available on iLearn. There are also weekly workshops in which you need to participate.
