Unit description

This unit explores the role and scope of engagement and education processes in the attainment of sustainable development goals. Students will examine case studies to explore principles of good practice. A framework for planning and evaluating educational programs will be developed. Students will also examine how education processes can be integrated within environment and conservation programs and demonstrate some practical skills in planning and managing an educational experience.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Articulate the role of and principles for effective engagement and education for sustainable development

ULO2: Demonstrate skills to design and evaluate a community / educational event

ULO3: Critically assess the design of education and engagement strategies to influence change towards sustainable development

ULO4: Critically reflect on how education and capacity building is designed to engage society with sustainable development

ULO5: Design a framework to evaluate education for sustainable development programs based on the principles of effective practice

ULO6: Plan and present written arguments in coherent, well-structured and documented form

General Assessment Information

All assignments must be submitted electronically on the iLearn site.

Each assignment has a separate upload site. The assignment site will usually be a 'Turnitin', where your work is reviewed for similarity to websites, articles or other students' work. If you have not given credit for ideas used to the author or source you will be penalised (failure of the assignment and reporting to a disciplinary committee to determine whether you have breached the University's Academic Integrity Policy: <https://staff.mq.edu.au/work/strategy-planning-and-governance/university-policies-and-procedures/policies/academic-integrity>). See information on academic honesty on the iLearn site and techniques on how to avoid common plagiarism errors (<https://www.students.mq.edu.au/public/download.jsp?id=201272>).

You do not need an assignment cover sheet for electronic submission to ENV58527, it is understood that you are signing a declaration of honesty. Be sure to add your name, title of work and unit to your work.

Online quizzes, in-class activities, or scheduled tests and exam must be undertaken at the time indicated in the unit guide. Should these activities be missed due to illness or misadventure, students may apply for Special Consideration.

All other assessments must be submitted by 5:00 pm on their due date. Should these assessments be missed due to illness or misadventure, students should apply for Special Consideration.

Assessments not submitted by the due date will receive a mark of zero **unless** late submissions are specifically allowed as indicated in the unit guide or on iLearn.

If late submissions are permitted as indicated in the unit guide or on iLearn a consistent penalty will be applied for late submissions as follows:

A 12-hour grace period will be given after which the following deductions will be applied to the awarded assessment mark: 12 to 24 hours late = 10% deduction; for each day thereafter, an additional 10% per day or part thereof will be applied until five days beyond the due date. After

this time, a mark of zero (0) will be given. For example, an assessment worth 20% is due 5 pm on 1 January. Student A submits the assessment at 1 pm, 3 January. The assessment received a mark of 15/20. A 20% deduction is then applied to the mark of 15, resulting in the loss of three (3) marks. Student A is then awarded a final mark of 12/20.

Late submissions will be accepted for ENV58527 with penalties.

Delivery and Resources

Class sessions

Class times are shown in the schedule of block mode sessions. Attendance at all sessions is compulsory.

Students can request consultations and extra meetings to discuss the unit content or assessment tasks individually or in groups as required.

This is a block mode unit. There are six full days in semester 1 made up of:

- Four all day class sessions which are run as a series of interactive workshops (9am-5pm) including the final session for students to apply what they have learned and demonstrate that learning by designing and facilitating an education workshop. The participants in the education workshop are the other students.
- One day online forum • One day of fieldtrip

The class sessions provide instructional input and experiential learning by way of a facilitated

learning process. This is intended to model practice in engagement, education and to contribute to the student's understanding of the education for sustainable development process. The sessions include:

- Short presentations to orient the student to concepts and activities;
- Practical activities in small groups in which students are asked to complete a task by sharing knowledge and reflecting on their thinking;
- Presentations of student activities and engagement in peer feedback;
- Contributions to discussion and feedback on the group activities.

Students attend approximately 42 hours of class work (which is compulsory) and are expected to undertake 110 hours of personal study, reading and reflection to present the assessment tasks. Students are responsible for managing their time for learning and the tasks for group work.

Students are invited to make an appointment/s for a tutorial, to gain feedback or to clarify issues from the convenor: vladimir.strezov@mq.edu.au.

Technology used and required

Students are expected to use a computer for academic research and for producing assessment tasks; to have access to the internet, make use of the Macquarie University library, student email, access the iLearn site for the unit and Zoom for the online forums.

Information about iLearn or other resources for this unit

There is ENV58527 iLearn site for enrolled students. Additional reading lists, resources and associated presentations are provided in a more detailed guide for enrolled students. **Reading to start you off**
