#### Unit description

In the era of significant market turmoil, institutional, as well as individual investors look beyond traditional investment vehicles such as bonds and shares. Alternative investments are the fastest growing, and probably the least understood, sector of the investment industry. The purpose of this unit is to explore the world of alternative investments such as investments in hedge funds, private equity / venture capital funds, real estate, and commodities, either directly or through funds of funds. The unit gives students a solid understanding of the industry knowledge and techniques that should be part of the toolkit of any money manager who advises private and institutional clients on the inclusion of alternative investments in their portfolio.

# Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <a href="https://www.mq.edu.au/study/calendar-of-dates">https://www.mq.edu.au/study/calendar-of-dates</a>

# **Learning Outcomes**

On successful completion of this unit, you will be able to:

**ULO1:** Examine the common features of alternative investments and their markets and distinguish among the principal classes of alternative investments.

**ULO2:** Apply valuation techniques to price alternative investments.

ULO3: Assess the benefits, such as return enhancement and/or risk diversification.

**ULO4:** Construct and evaluate a portfolio with alternative investments.

# **General Assessment Information**

#### Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Other assessment criteria for assessment tasks will be provided on the unit iLearn site.
