Unit description

This unit develops students' abilities to conduct equity valuation for investment purposes. This advanced module introduces the techniques used by equity financial analysts to measure the worth of a company and its investments. Students assume the role of a financial analyst and learn the mechanics of financial valuation by: performing industry and financial analysis, measuring accounting quality, estimating discount rates, forecasting cash flows, and ultimately issuing a buy/hold/sell recommendation on the firm based on the estimated target price.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Explain the principles and theory behind each valuation technique.

ULO2: Evaluate various business valuation techniques and select and apply the most appropriate technique to real world valuation problems.

ULO3: Working collectively in a group to value the equity of a company and make recommendations.

General Assessment Information

Late submissions of assessments

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Other assessment criteria for assessment tasks will be provided on the unit iLearn site.
