Unit description

This is a course-wide capstone unit that is intended to be taken by students in their final session of study. The unit is designed to broaden students' understanding of the importance of strategic business matters in the areas of an organisation's planning, operations, leadership, ethics and broader sustainability, economic and global developments. Through the unit's real world experience opportunities and engagement in business challenges requiring cross-disciplinary insights and knowledge, students are not only required to develop their reflective and integrative thinking but also engage in the development of their future-focused, strategic thinking. Students are exposed to contemporaneous business intelligence devised to give them the opportunity to consider practical implications of business issues and challenges and to investigate strategic business matters within the context of a business environment. Students work in self-managing teams to prepare group reports, complete practice-based tasks and conduct a session long research-based project.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

ULO2: Discuss the relationship between sustainability, value creation and governance

within a business context and articulate an informed ethical position.

ULO3: Critically analyse recent and developing business issues, formulate creative and strategic solutions and defend propositions.

General Assessment Information

Late submissions of assessments Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests,...

Special Consideration

To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date
