Unit description

The business environment is changing at a rapid pace. Managers use marketing research to keep abreast of market changes, identify market opportunities, and to access accurate information to reduce uncertainty in marketing decision-making. In this unit, students will develop knowledge of marketing research principles and practices, and critical analysis and creative thinking skills to manage marketing research projects. Students will learn different research approaches and design, and implement marketing research. More specifically, students will learn to collaborate with their peers to identify a marketing problem, develop research instruments, identify samples, and collect data. Students will develop skills to apply statistical analysis software using real data and analyse the data and provide information to solve marketing problems and support marketing decisions. Students will advance extra employability skills by exercising professional judgment throughout all stages of research to identify opportunities and solve complex marketing problems.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Critically analyse and explain the principles and practices of marketing research

ULO2: Design and implement marketing research projects in collaboration with peers

ULO3: Analyse data and report findings that support marketing decisions

ULO4: Exercise professional judgment throughout all stages of research to identify opportunities and solve complex marketing problems

General Assessment Information

Unless a Special Consideration request has been submitted and approved, no extensions will be granted. There will be a deduction of 10% of the total available assessment-task marks made from the total awarded mark for each 24-hour period or part thereof that the submission is late. Late submissions will only be accepted up to 96 hours after the due date and time.

No late submissions will be accepted for timed assessments – e.g., quizzes, online tests.

Table 1: Penalty calculation based on submission time

Submission time after the due date (including weekends)	Penalty (% of available assessment task mark)	Example: for a non-timed assessment task marked out of 30
< 24 hours	10%	10% x 30 marks = 3-mark deduction
24-48 hours	20%	20% x 30 marks = 6-mark deduction
48-72 hours	30%	30% x 30 marks = 9-mark deduction
72-96 hours	40%	40% x 30 marks = 12-mark deduction
> 96 hours	100%	Assignment won't be accepted

Special Consideration To request an extension on the due date/time for a timed or non-timed assessment task, you must submit a Special Consideration application. An application for Special Consideration does not guarantee approval.

The approved extension date for a student becomes the new due date for that student. The late submission penalties above then apply as of the new due date.

Assessment Tasks

Name	Weighting	Hurdle	Due
Practice-based activities	20%	No	Weeks 1-13
Marketing research project	45%	No	Week 4 (video presentation) & Week 8 (written report)

Name	Weighting	Hurdle	Due

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Classes: This unit has 3 hours of teaching per week, consisting of 1 x 1-hour seminar, 1 x 1.5-hour synchronous workshop, and 1 x 0.5-hour asynchronous activities as per unit schedule

during the semester.

Seminar: PowerPoint Slides and pre-recording videos will be available on iLearn; students do not need to attend any seminars.

Synchronous Workshop: Workshops are presented in both F2F and online modes. Students should enrol only in one workshop based on their preferences. The workshop starts in week one. The timetable for workshops can be found on the University website at:
<http://www.timetables.mq.edu.au>.

Asynchronous Workshop Activities: Students need to engage in weekly discussion forums and attempt weekly quizzes on iLearn before attending synchronous workshops.

Technology Used and Required • Please ensure that you have access to a personal computer so you are able to access the internet, use AppStream to work with SPSS, use word processing software and PowerPoint program that are required for the preparation of assignments and presentations.

- Students will find teaching resources to assist their study on iLearn, such as lecture notes, practice questions, and other resources. Students are required to check iLearn regularly for announcements.

What is expected from students? The total time commitment required for this unit is a minimum of 150 hours. Specifically, in addition to the 3 hours of seminar/workshop contact per week, students are expected to devote an additional 10 hours to self-directed study. This includes time spent in preparing for classes, preparing for and completing assessment tasks, together with time spent in general study, and revision. It is expected that all students come to the seminar/workshop on time and fully prepared for discussion. Group work focuses on analysing, developing, and implementing different issues related to marketing research in practice and therefore students should make sure to allocate the necessary time and attention needed to work with their group during the semester. Students are expected to complete all assessment tasks for this subject to ensure the successful completion of the unit. Successful completion of this unit requires the student to achieve at least 50% in total in the assessment tasks offered.
