Unit description

This unit examines the process of auditing and the concepts which are required in the practice. Although the focus of attention is on audits of financial reports undertaken in compliance with the Corporations Act 2001, reference is also made to other forms of audit and assurance. Students will be required to exercise judgement in order to identify and assess risks of material misstatement, to develop audit procedures that respond to those risks, and to form an opinion on the financial report based on the audit evidence obtained. The unit is both practical and theoretical, with students required to apply their knowledge to discussing cases developed from practice. Students will also be exposed to current research and contemporary issues in auditing and assurance.

Important Academic Dates

Information about important academic dates including deadlines for withdrawing from units are available at <https://www.mq.edu.au/study/calendar-of-dates>

Learning Outcomes

On successful completion of this unit, you will be able to:

ULO1: Describe and apply the requirements for audits within the context of the current audit legislation, ethical and regulatory frameworks.

ULO2: Perform appropriate risk analysis and internal control assessment, and design sufficient and appropriate audit procedures specific to case-based scenarios.

ULO3: Identify and evaluate relevant audit evidence, including contradictory evidence, to inform judgments, make decisions, and reach well-reasoned conclusions.

ULO4: Research and critique current developments in audit practice, and articulate a justified view.

ULO5: Develop capacity for effective collaboration and communication.

General Assessment Information

Submission of assessment tasks

All applicable text based assessments must be submitted through Turnitin. It is the student's responsibility to ensure that work is submitted correctly prior to the due date. No hard copies of assessments will be accepted and only Turnitin records will be taken as records of submission.

Multiple submissions may be possible in some units via Turnitin prior to the final due date and time of an assessment task and originality reports may be made available to students to view and check their work. All identified matching text will be reconsidered carefully. Students should note that the system will not immediately produce the similarity score on a second or subsequent submission - it takes approximately 24 hours for the report to be generated. This may be after the due date so students should plan any resubmissions carefully. Please refer to instructions on how to submit your assignment through Turnitin and access similarity reports and feedback provided by teaching staff. Should you have questions about Turnitin or experience issues submitting through the system, you must inform unit staff by emailing us at accg8125@mq.edu.au. If the issue is technical in nature may also lodge OneHelp Ticket, refer to the [IT help page](#).

It is the responsibility of the student to retain a copy of any work submitted. Students must produce these documents upon request. Copies should be retained until the end of the grade appeal period each term. In the event that a student is asked to produce another copy of work submitted and is unable to do so, they may be awarded zero (0) for that particular assessment task.

Late Assessment Submission Penalty

Unless an application for [Special Consideration](#) has been submitted and approved, a 5% penalty (of the total possible mark) will be applied each day a written assessment is not submitted, up until the 7th day (including weekends). After the 7th day, a grade of '0' will be awarded even if the assessment is submitted. Submission time for all written assessments is set at 11.55pm. A 1-hour grace period is provided to students who experience a technical concern.

For any late submissions of time-sensitive tasks, such as scheduled tests, exams, performance assessments, and/or scheduled practical assessments/labs, students need to submit an application for [Special Consideration](#).

Assessment Tasks

Name	Weighting	Hurdle	Due
Online mid-session test	25%	No	06/09/2022
Case study assignment	20%	No	10/10/2022
Online Final Examination	55%	No	S2 Exam Period

Online mid-session test

Assessment Type ¹: Quiz/Test

Indicative Time on Task ²: 25 hours

Due: **06/09/2022**

Weighting: **25%**

The purpose of the mid-session test is to provide timely feedback to students on their progress during the course and to encourage students to actively engage with the material cover in the unit

On successful completion you will be able to:

- Describe and apply the requirements for audits within the context of the current audit legislation, ethical and regulatory frameworks.
- Perform appropriate risk analysis and internal control assessment, and design sufficient and appropriate audit procedures specific to case-based scenarios.

Case study assignment

Assessment Type ¹: Case study/analysis

Indicative Time on Task ²: 23 hours

Due: **10/10/2022**

Weighting: **20%**

Students are required to work in groups on this case study assessment. Each group will be presented with a case study and required to apply their knowledge of audit processes and procedures to their case. Students will submit their responses via a group report (worth 10%) and a short video presentation (worth 10%).

On successful completion you will be able to:

- Describe and apply the requirements for audits within the context of the current audit legislation, ethical and regulatory frameworks.
- Perform appropriate risk analysis and internal control assessment, and design sufficient and appropriate audit procedures specific to case-based scenarios.
- Identify and evaluate relevant audit evidence, including contradictory evidence, to inform judgments, make decisions, and reach well-reasoned conclusions.
- Research and critique current developments in audit practice, and articulate a justified view.
- Develop capacity for effective collaboration and communication.

Online Final Examination

Assessment Type ¹: Examination

Indicative Time on Task ²: 35 hours

Due: **S2 Exam Period**

Weighting: **55%**

A two-hour online examination (open book) will be held during the University Examination period.

On successful completion you will be able to:

- Describe and apply the requirements for audits within the context of the current audit legislation, ethical and regulatory frameworks.
- Perform appropriate risk analysis and internal control assessment, and design sufficient and appropriate audit procedures specific to case-based scenarios.
- Identify and evaluate relevant audit evidence, including contradictory evidence, to inform judgments, make decisions, and reach well-reasoned conclusions.
- Research and critique current developments in audit practice, and articulate a justified view.

¹ If you need help with your assignment, please contact:

- the academic teaching staff in your unit for guidance in understanding or completing this type of assessment
- the [Writing Centre](#) for academic skills support.

² Indicative time-on-task is an estimate of the time required for completion of the assessment task and is subject to individual variation

Delivery and Resources

Students are required to attend three hours of teaching per week. It should be emphasised that attendance at the seminars is a necessary but not sufficient condition for adequate examination preparation.

Each week all students should study the relevant materials prescribed and attempt the assigned seminar questions PRIOR to attending the class, and participate in class discussions regarding the concepts and their application in practical cases. The weekly reading and questions guide for the semester will be available before the session starts. Weekly seminar slides will also be available before the session starts.

Each week's seminar includes a presentation by the seminar leader. The presentation aims to cover the key concepts of the unit material set for that week and is critical to the coverage and understanding of the unit content. The presentation will be complemented by working through the practical seminar questions and readings set for that week. When working through these questions it is expected that seminar participants will contribute to the discussion and raise particular issues or problems that they have had with the seminar questions. Remember that answers to these questions are not easily bracketed as "right" or "wrong" but are the product of a logical and well-structured analysis.

Although each seminar focuses on different aspect of the audit process, the students are expected to understand the overall audit process and integrate different aspects covered over the session.

Please note that solutions to the weekly seminar assigned questions will not be made available to students or recorded during the seminars. Therefore it is imperative that students attend the weekly seminar in order to correct their work and to clarify any issues they may have in understanding the material assigned.

The timetable for classes can be found on the University web site at: <http://www.timetables.mq.edu.au/>

Changes to student timetables may only be made through eStudent. Students wishing to change their allocated seminar should log onto eStudent and enrol in a seminar where there is a vacancy. Any question of an administrative nature in relation to seminar allocations should be addressed to accg8125@mq.edu.au.

Student enrolments must be finalised by the end of Week 1. No further changes may be made after this date.
